

A close-up photograph of several vibrant pink roses. The central rose is in sharp focus, showing the intricate layering of its petals. Other roses are visible in the foreground and background, slightly out of focus, creating a sense of depth. The overall color palette is dominated by various shades of pink, from deep magenta to light blush.

PRICE LIST

GREEN HAVEN

GARDEN CENTRE

Warranty

We guarantee our evergreens, trees and shrubs for one year from the date of purchase. A 5 year warranty is available with the purchase of MYKE® Tree and Shrub Growth Supplement.

The plant in question must be returned and accompanied by the original invoice.

Evergreens, trees and shrubs that fail to live within one full year are replaced once only for the amount paid as shown on the invoice, or a credit will be issued towards any other purchase.

Tender roses, David Austin roses, Patio roses, clematis, perennials, and water plants are guaranteed for the first growing season only. No over-winter guarantee applies to these plants.

Symbols of light tolerance

- – minimum of 6 hours of sunlight required
- ◐ – minimum of 4 hours of sunlight required
- – tolerates morning sun to about 10 o'clock, or early evening sun

General Information

Your micro-climate – soil, light, moisture conditions, temperature, exposure – may differ from one location to the next. This affects the growth rate and mature size of your plant; it also explains why suppliers' printed sizes of mature plants may differ from our signs throughout this garden centre.

We make every attempt in our pricelist and on our own printed signs to supply you with the mature size and growth rate you can reasonably expect here in southern Alberta.

**Prices may change without notice.
GST not included.**

5 YEAR

EXTENDED
WARRANTY

For most trees and shrubs with the purchase of MYKE® Tree and Shrub Growth Supplement.

WHAT IS THIS GROWTH SUPPLEMENT

It contains mycorrhizae, a root fungus that occurs naturally in the soil on and around most plants.

Mycorrhizae create a network of fungal filaments all around the plant roots in the soil. This increases the plant's capacity to absorb more water and nutrients from the soil. Plants then have enhanced root development and reduced water and heat stress, resulting in plants that are vigorous and healthy.

HOW TO GET THE WARRANTY

Buy a tree or shrub and
MYKE® Tree and Shrub
Growth Supplement.

If your plant does not survive during the first five years, simply return your plant to our store along with the proof of purchase and receive a new plant of an equivalent value.

TERMS & CONDITIONS

There are several exclusions to the warranty – see terms and conditions in our store, on the MYKE® Planting Guide, or www.usemyke.com.

EVERGREENS

= pot size

CEDAR *Thuja occidentalis*

soil – moist to wet
 roots – shallow, wide spreading
 pruning - new growth early summer, old growth when dormant
 note – shelter from west wind & south sun in winter

Globe White Cedar

NEW **Danica** Cedar zone 3 1 1
 height: 60cm (2 ft) spread 60cm (2 ft)
 A true dwarf globe-shaped evergreen with bright emerald foliage, turns bronze in winter. Keeps shape naturally; excellent for a small hedge. Slow growing.
 #2 - \$32.99

Globe Cedar zone 2 1 1
 height: 1.8m (6 ft) spread: 1.8m (6 ft)
 Broad rounded evergreen with lacy, soft textured bright green foliage. Keep sheared for shape.
 #2 - \$32.99

Little Giant Globe Cedar zone 3 1 1
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Dense evergreen with soft feathery bright green foliage. Keeps formal shape naturally. Slow growth.
 #2 - \$32.99 #5 - \$44.99

Pyramid White Cedar

NEW **Baby Bear** Pyramid Cedar zone 3 1 1
 height: 1.8m (6 ft) spread: 1m (3 ft)
 A dwarf upright evergreen, rich green foliage year round; maintains a symmetrical shape with little pruning. Slow growing.
 #5 - \$44.99

Degroot's Spire Pyramid Cedar zone 3 1 1
 height: 2.7m (9 ft) spread: 75cm (2.5 ft)
 Narrow upright evergreen, dense bright green foliage. Excellent screen. Very slow growing.
 #5 - \$44.99

Holmstrup Pyramid Cedar zone 3 1 1
 height: 2m (7 ft) spread: 1.2m (4 ft)
 Narrow upright evergreen, dense deep green foliage. Excellent accent plant. Slow growing. Deer resistant.
 #5 - \$44.99

Skybound Pyramid Cedar zone 3 1 1
 height: 5m (17 ft) spread: 1.2m (4 ft)
 Narrow upright evergreen, whorled texture, rich dark green foliage. Somewhat resistant to sun-scall.
 #5 - \$44.99 #7 - \$59.99

Wareana Siberian Cedar zone 2 1 1
 height: 3m (10 ft) spread: 2m (7 ft)
 Broad pyramidal evergreen, coarse textured deep green foliage, bronze green in winter. No winter protection required. Slow growing.
 #5 - \$44.99

FIR

pruning - rarely needs pruning. New growth early summer, old growth when dormant

Dwarf Balsam Fir zone 3 1 1
Abies balsamea 'Nana'
 height: 60cm (2 ft) spread: 1m (3 ft)
 Low spreading evergreen, soft, dark glossy green needles, brown winter buds. Prefers sandy acidic, moist soil. Needs a sheltered location. Slow growth.
 #2 - \$32.99

JUNIPER

soil - dry to moist
 pruning - new growth early summer, old growth when dormant
 note – drought & Chinook tolerant once established

Spreading Juniper

Alpine Carpet Juniper zone 2 1 1
Juniperus communis 'Mondap'
 height: 20cm (8 in.) spread: 1.2m (4 ft)
 Needle-like bluish-green foliage with silver stripes year round. Proliferous ground-cover, blue berries.
Native selection.
 #2 - \$32.99

Blue Chip Juniper zone 2 1 1
Juniperus horizontalis 'Blue Chip'
 height: 20cm (8 in.) spread: 2m (7 ft)
 Silver-blue foliage turns purplish in winter. Spreading branches form a dense ground-cover.
 #2 - \$32.99

Blue Danube Juniper zone 3 1 1
Juniperus sabina 'Blue Danube'
 height: 60cm (2 ft) spread: 2m (7 ft)
 Bluish green foliage, vase-shaped spreading growth habit.
 #2 - \$32.99

Blue Rug Juniper zone 3 1 1
Juniperus horizontalis 'Wiltonii'
 height: 15cm (6 in.) spread: 2m (7 ft)
 Frosty blue foliage turns purple in winter; trailing branches radiate from center to form a low dense carpet.
 #2 - \$32.99

● full shade ▸ part shade ○ full sun

Blue Star Juniper zone 4 ▸ ○
Juniperus squamata 'Blue Star'
 height: 60cm (2 ft) spread: 1.2m (4 ft)
 Needle-like silver-blue foliage, mounding. Needs a sheltered location. Slow growing.
 #2 - \$32.99

Buffalo Juniper zone 3 ▸ ○
Juniperus sabina 'Buffalo'
 height: 30cm (1 ft) spread: 2m (7 ft)
 Bright green foliage year round, long trailing branches; good for cascading over rocks.
 #2 - \$32.99 #5 - \$49.99

Calgary Carpet Juniper zone 3 ▸ ○
Juniperus sabina 'Monna'
 height: 30cm (1 ft) spread: 1.5m (5 ft)
 Soft bright green foliage year round, dense circular spreading growth habit. Great ground-cover.
 #2 - \$32.99 #5 - \$49.99

Gold Coast Juniper zone 3 ▸ ○
Juniperus x media 'Gold Coast'
 height: 75cm (2.5 ft) spread: 1.5m (5 ft)
 Golden outer foliage year round, green inside; irregular growth habit; prune for dense growth. Protect from scorching sun. Fast growing.
 #2 - \$32.99 #5 - \$49.99

Green Carpet Juniper zone 3 ▸ ○
Juniperus communis 'Green Carpet'
 height: 20cm (8 in.) spread: 1m (3 ft)
 Bright green needle-like foliage matures to dark green; dense, spreading branches. Slow growing.
 #2 - \$32.99

Moor-Dense Juniper zone 3 ▸ ○
Juniperus sabina 'Monard'
 height: 30cm (1 ft) spread: 1.5m (5 ft)
 Bright green foliage year round, formal dense mounding growth habit. Deer resistant.
 #2 - \$32.99

Mountain Juniper zone 2 ○
Juniperus communis 'Montana'
 height: 15cm (6 in.) spread: 1.5m (5 ft)
 Whip-cord like, deep greenish-blue foliage year round; mat-forming branches, small blue berries.
 #2 - \$32.99 #5 - \$49.99

Savin Juniper zone 3 ▸ ○
Juniperus sabina
 height: 1.2m (4 ft) spread: 2.5m (8 ft)
 Soft dark green foliage year round; vase-shaped arching branches. Fast growing.
 #2 - \$32.99 #5 - \$49.99

Tam Juniper zone 3 ▸ ○
Juniperus sabina 'Tamariscifolia'
 height: 60cm (2 ft) spread: 2.5m (8 ft)
 Blue-green foliage year round, densely branched, symmetrical spreading mound.
 #2 - \$32.99

Upright Juniper

Cologreen Juniper zone 3 ▸ ○
Juniperus scopulorum 'Cologreen'
 height: 5m (17 ft) spread: 2m (7 ft)
 Pyramidal evergreen with light green foliage, showy blue berries; holds compact shape with little pruning. Slow growing.
 #5 - \$109.99

Compressa Common Juniper zone 3 ▸ ○
Juniperus communis 'Compressa'
 height: 1.2m (4 ft) spread: 30cm (1 ft)
 Extremely narrow upright juniper, blue-green foliage; Impressive specimen for rock gardens. Slow growing.
 #5 - \$109.99

Medora Juniper zone 3 ▸ ○
Juniperus scopulorum 'Medora'
 height: 3m (10 ft) spread: 1m (3 ft)
 Pyramidal evergreen, dense blue-green foliage; holds shape without pruning. Slow growing.
 #5 - \$109.99 #10 - \$179.99

Moonglow Juniper zone 3 ▸ ○
Juniperus scopulorum 'Moonglow'
 height: 5m (17 ft) spread: 2m (7 ft)
 Broad pyramidal evergreen with blue-green foliage year round. Can be sheared easily.
 #5 - \$109.99 #10 - \$179.99

Wichita Blue Juniper zone 3 ▸ ○
Juniperus scopulorum 'Wichita Blue'
 height: 4m (13 ft) spread: 1.5m (5 ft)
 Broad pyramidal evergreen, silver-blue foliage, dense branching. Needs pruning to retain shape.
 #5 - \$109.99 #10 - \$179.99

TOPIARY EVERGREENS

pruning - best when pruned in early summer to mid summer to retain shape

Topiary Pine

Pom Pom - French Blue Scots Pine zone 3 ○
Pinus sylvestris 'French Blue'
 height: 1.5m (5 ft) spread: 1.2m (4 ft)
 Sculpted pom poms at branch tips. Short bright blue needles. Pinch candles to retain shape.
 #5 - \$229.99

Topiary Spruce

Globe Blue Spruce top grafted zone 2 ○
Picea pungens 'Globosa'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Dense branching, rounded shape, silver-blue needles. Pinch new growth to retain shape.
 #5 - \$149.99 #10 - \$219.99

The Blues Weeping Blue Spruce top grafted
Picea pungens 'The Blues' zone 3 ○
 height: 1.5m (5 ft) spread: 1.2m (4 ft)
 Dwarf spruce with irregular weeping branches,
 silver-blue needles; lower branches may form a
 trailing ground-cover. Pinch new growth to shape.
 #5 - \$149.99

LARCH

soil – prefers moist soil
 fall colour – brilliant yellow
 pruning – new growth early summer, old growth
 when dormant
 note – bright green spring needles, drop for winter

Siberian Larch zone 2 ▶ ○
Larix sibirica
 height: 15m (50 ft) spread: 7m (23 ft)
 Pyramidal tree; soft green needles in summer.
 Tolerates drought & Chinooks once established.
 #5 - \$59.99

Weeping Larch zone 3 ▶ ○
Larix decidua 'Pendula'
 height: 4m (13 ft) spread: 3m (10 ft)
 Weeping branches trained downwards to an
 undulating ground-cover. Soft green needles in
 summer change to golden yellow in fall. Needs
 sheltered location.
 #5 - \$109.99

PINE

EASTERN WHITE PINE

soil – moist
 feature – long, soft needles
 pruning – new growth early summer, old growth
 when dormant

Blue Shag Dwarf White Pine zone 3 ▶ ○

Pinus strobus 'Blue Shag'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Dense rounded evergreen with long, flexible
 bluish green needles. Keep soil moist. Slow
 growth.
 #5 - \$109.99

Columnar White Pine zone 3 ○
Pinus strobus 'Fastigiata'
 height: 15m (50 ft) spread: 2m (7 ft)
 Tall pine with upward growing branches; long, soft
 blue-green needles in pairs. Fast growing.
 #5 - \$109.99

LODGEPOLE PINE

soil – moist
 pruning – if necessary, prune new growth in early
 summer, old growth when dormant

Lodgepole Pine zone 2 ▶ ○
Pinus contorta var. *latifolia*
 height: 20m (65 ft) spread: 6m (20 ft)
 Very tall evergreen with a straight trunk. Short
 green needles in pairs. Prefer moist soil, tolerates
 dry soil once established. **Native Selection.**
 #5 - \$49.99

MOUNTAIN PINE

pruning – new growth early summer, old growth
 when dormant

Mountain Pine zone 2 ○
Pinus uncinata
 height: 6m (20 ft) spread: 3.5m (12 ft)
 Pyramidal pine with a single trunk; long needles in
 pairs. Tolerates dry soil once established.
 #5 - \$49.99 #10 - \$129.99

MUGO PINE

soil – dry to moist (keep moist until established)
 pruning – new growth early summer, old growth
 when dormant
 note – drought & Chinook tolerant once established

Columnar Mugo Pine zone 2 ○
Pinus mugo 'Columnaris'
 height: 3m (10 ft) spread: 1.2m (4 ft)
 Narrow upright pine with rich long green needles,
 many small cones, reddish-orange bark.
 #5 - \$109.99

Dwarf Mugo Pine zone 3 ○
Pinus mugo var. *pumilio*
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Bushy evergreen, short candles and short rich
 green needles. Pinch candles in June to retain
 shape.
 #2 - \$32.99 #5 - \$49.99 #10 - \$149.99

Mops Dwarf Mugo Pine zone 3 ○
Pinus mugo 'Mops'
 height: 1m (3 ft) spread: 1m (3 ft)
 Dense rounded evergreen, short dark green
 needles, candles and cones. Keeps shape naturally.
 Slow growing.
 #5 - \$69.99

Mugo Pine zone 2 ○
Pinus mugo 'Mughus'
 height: 2m (7 ft) spread: 2m (7 ft)
 Bushy very open growing evergreen with long
 dark green needles. Pinch candles to retain shape.
 #2 - \$32.99 #5 - \$49.99

● full shade ▸ part shade ○ full sun

Slowmound Dwarf Mugo Pine zone 3 ○
Pinus mugo 'Slowmound'
 height: 60cm (2 ft) spread: 1m (3 ft)
 Short dark green needles. Retains compact round shape naturally. Slow growing.
 #5 - \$69.99

Tannenbaum Mugo Pine zone 2 ○
Pinus mugo 'Tannenbaum'
 height: 4.5m (15 ft) spread: 3.5m (12 ft)
 Pyramidal mugo pine with single trunk and upward growing branches, long dark green needles year round. Fast growing.
 #5 - \$109.99

PONDEROSA PINE

pruning - new growth early summer, old growth when dormant

Ponderosa Pine zone 3 ○
Pinus ponderosa
 height: 15m (50 ft) spread: 6m (20 ft)
 Pyramidal evergreen with orange-brown bark when mature; very long, yellowish-green needles, 3 to a bundle; deep massive taproot.
 #10 - \$129.99

SCOTS PINE

soil - dry to moist (keep moist until established)
 pruning - new growth early summer, old growth when dormant
 feature - peeling cinnamon bark, twisted needles

Columnar Scotch Pine zone 3 ○
Pinus sylvestris 'Fastigiata'
 height: 8m (26 ft) spread: 2m (7 ft)
 Tightly upright, columnar evergreen; green needles. Great feature tree for small home landscapes. Fast growing.
 #5 - \$109.99

Green Penguin Dwarf Scots Pine zone 3 ▸ ○
Pinus sylvestris 'Green Penguin'
 height: 1.2m (4 ft) spread: 45cm (1.5 ft)
 Dwarf compact pyramidal form; deep green rigid needles; substitute to the Dwarf Alberta spruce.
 #5 - \$109.99 #10 - \$189.99

Hillside Creeper Scots Pine zone 3 ▸ ○
Pinus sylvestris 'Hillside Creeper'
 height: 60cm (2 ft) spread: 3m (10 ft)
 Low spreading, undulating bushy pine; medium green needles with lighter shade in winter. Excellent ground-cover option.
 #5 - \$109.99

Scotch Pine zone 2 ○
Pinus sylvestris
 height: 15m (50 ft) spread: 8m (26 ft)
 Pyramidal pine tree when young, matures to an open rounded crown; peeling showy orange bark when mature. Very adaptable.
 #5 - \$49.99

RUSSIAN CYPRESS

soil - moist, well-drained
 pruning - new growth early summer, old growth when dormant

Celtic Pride Siberian Cypress zone 2 ● ▸ ○
Microbiota decussata 'Prides'
 height: 60cm (2 ft) spread: 1.5m (5 ft)
 Soft feathery green foliage turns russet in winter. Low growing spreading evergreen.
 20cm (8 in.) - \$32.99

SPRUCE

COLORADO SPRUCE

pruning - new growth early summer, old growth when dormant
 note - one of the best evergreens for dry climates
 soil - dry to moist (keep moist until established)

Baby Blue Spruce zone 2 ○
Picea pungens 'Baby Blue'
 height: 20m (65 ft) spread: 8m (26 ft)
 Intense blue, very tall pyramidal tree, full branching, very thick needles.
 #1 - \$17.99 #5 - \$69.99 #10 - \$149.99

NEW Blue Totem Blue Spruce zone 2 ○
Picea pungens 'Blue Totem'
 height: 4.5m (15 ft) spread: 1m (3 ft)
 A narrow upright, columnar spruce, upward angled branches, powdery-blue foliage. Slow growing.
 #5 - \$129.99

Bylands Dwarf Blue Spruce zone 2 ○
Picea pungens 'ByJohn'
 height: 1m (3 ft) spread: 1m (3 ft)
 A very compact, dwarf globe blue spruce, medium blue needles, requires little care to maintain shape. Slow growing.
 #2 - \$69.99

Colorado Spruce zone 2 ○
Picea pungens
 height: 20m (65 ft) spread: 8m (26 ft)
 Very tall pyramidal tree, needles in shades of green to blue.
 #5 - \$49.99

Columnar Blue Spruce zone 2 ○
Picea pungens 'Fastigiata'
 height: 6m (20 ft) spread: 2m (7 ft)
 Narrow evergreen tree with silvery-blue needles. Substitute for pyramid cedar in a sunny location.
 #5 - \$109.99 #10 - \$199.99

Fat Albert Blue Spruce zone 2 ○
Picea pungens 'Fat Albert'
 height: 9m (30 ft) spread: 4.5m (15 ft)
 Broad pyramidal blue spruce, dense branching habit, well shaped, rich silvery-blue needles; ideal for smaller landscapes. Slow growing.
 #5 - \$109.99

Montgomery Blue Spruce zone 2 ○
Picea pungens 'Montgomery'
 height: 2.5m (8 ft) spread: 1.8m (6 ft)
 Silver-blue needles; rounded evergreen when young, matures to a pyramidal shape. Very hardy.
 #5 - \$129.99

Sester Dwarf Blue Spruce zone 2 ► ○
Picea pungens 'Sester Dwarf'
 height: 1.8 (6 ft) spread: 1.2m (4 ft)
 Cone-shaped dwarf spruce with icy-blue needles; a mini version of the Colorado blue spruce. Perfect for small places. Slow growing
 #5 - \$129.99

NORWAY SPRUCE

soil - dry to moist
 pruning - new growth early summer, old growth when dormant

Columnar Norway Spruce zone 4 ► ○
Picea abies 'Cupressina'
 height: 9m (30m ft) spread: 3m (10 ft)
 A narrow upright evergreen with bluish-green needles, tight upright branching habit. Prefers moist, well-drained soil. Fast growing.
 #5 - \$109.99

Dwarf Norway Spruce zone 3 ● ► ○
Picea abies 'Pumila'
 height: 1m (3 ft) spread: 1.8m (6 ft)
 Short dark blue-green needles; broad globe, uniform branching. Needs a sheltered location.
 #5 - \$59.99

Nest Norway Spruce zone 3 ● ► ○
Picea abies 'Nidiformis'
 height: 60cm (2 ft) spread: 1.5m (5 ft)
 Short green needles; broad flat shape with a depressed center when young. Slow growing.
 #5 - \$59.99

WHITE SPRUCE

soil- moist
 pruning - new growth early summer, old growth when dormant

Dwarf Alberta White Spruce zone 4 ►
Picea glauca 'Conica'
 height: 2m (7 ft) spread: 1m (3 ft)
 Dwarf conical tree; dense bright green needles;
NOT Chinook tolerant, needs a sheltered location, keep soil moist. Very slow growing.
 #5 - \$49.99

Montrose Charm White Spruce zone 3 ○
Picea glauca 'Montrose Charm'
 height: 9m (30 ft) spread: 3m (10 ft)
 Columnar narrow spruce; compact dense branching; soft, fuzzy light blue-green needles. Fast growing.
 #5 - \$49.99

YEW

soil - moist
 pruning - new growth early summer, old growth when dormant
 note - needs a sheltered location

Emerald Spreader Japanese Yew zone 4 ► ●
Taxus cuspidata 'Monloo'
 height: 75cm (2.5 ft) spread: 2.5m (8 ft)
 Low, spreading globe evergreen with soft, dark green needles. Slow growing. Rabbit Resistant.
 #2 - \$32.99

Morden Upright Japanese Yew zone 3 ● ► ○
Taxus cuspidata 'Morden'
 height: 1m (3 ft) spread: 1.2m (4 ft)
 Compact growth, dark green foliage. Needs good drainage. Tolerant of shearing. Rabbit resistant.
 #2 - \$32.99

VINES

All VINES are guaranteed for the first growing season only. No over-winter guarantee applies.

CLEMATIS

Pruning Group A These bloom on old wood and can be left on the trellis over winter. Prune to cut out weak or dead stems after flowering. Severe pruning after flowering every other year will keep growth under control.

Pruning Group B These bloom on last year's and current season's growth (not always on last year's wood in southern Alberta). Light pruning of weak or dead wood in early spring. Severe pruning will reduce flowering, but is recommended to rejuvenate plant every other year.

Pruning Group C These bloom on current year's growth in summer. Prune back in early spring to about 30cm (1 ft) above ground.

Small flowered/Species Clematis

Species Clematis & their hybrids bloom on old wood in spring or summer. Nodding, bell-shaped or star-like flowers, silky seed heads for winter display; drought & Chinook tolerant once established. Pruning Group A or C.

Blue Bird *C. macropetala* zone 2 ● ▸ ○
Spring; double lavender-blue, nodding. Group A.

Lagoon *C. macropetala* zone 3 ● ▸ ○
Spring; blue-white, nodding. Group A

#1 - \$21.95

Large/Summer flowering Clematis

Summer flowering clematis bloom on new growth from June until fall. They require cool roots and well drained humus rich soil.
Pruning Group B or C. ● – also shade tolerant

Ascotiensis - blue. Group C
Comtesse De Bouchard - pink. Group C
Ernest Markham - magenta-red. Group C
Fargesioides - white. Group C
Gypsy Queen - plum-purple. Group C
Hagley Hybrid - pink. Group C
Henryi - white. Group C
Jackmanii - deep purple. Group C ●
Jackmanii Superba - deep purple. Group C ●
Mme. Julia Correvon - red. Group C
Pink Fantasy - soft to dark pink. Group C
Polish Spirit - purple. Group C
Purple Plena Elegans - rose-purple. Group C
Romantika - dark purple. Group C
Rouge Cardinal - crimson. Group C

#1 - \$21.95

HONEYSUCKLE

soil – dry to moist (keep moist until established)
pruning - late winter to early spring
note – drought & Chinook tolerant once established
note – leafing out on old wood; prune
note – twining vines require tie-up and support to climb feature – attracts hummingbirds

Dropmore Scarlet Honeysuckle zone 3 ▸ ○
Lonicera x brownii 'Dropmore Scarlet'
height: 3m (10 ft)
Scarlet buds, tubular salmon coloured blooms, from June until frost. Glossy green foliage.
#1 - \$21.95

HOPS

pollination – needs male & female plant for fruit
pruning – late fall or early spring, close to the ground

Bianca Golden Hops zone 3 ▸ ○
Humulus lupulus 'Bianca'
height: 6m (20 ft)
Yellow lobed leaves maturing to light green, clusters of ornamental yellow-green fruit. Drought tolerant once established. Needs structural support. Very fast growing.
#1 - \$21.95

Common Golden Hops zone 3 ▸ ○
Humulus lupulus 'Aureus'
height: 6m (20 ft)
Striking golden foliage, maturing to yellow-green foliage, yellow ornamental fruit. Needs structural support. Drought tolerant once established.
#1 - \$21.95

IVY, hardy

soil – dry to moist (keep moist until established)
pruning - late winter or early spring to shape or train a new direction of growth
note – leafing out on old wood; prune only to shape feature – brilliant burgundy red fall foliage

Engelmann Ivy zone 3 ● ▸ ○
Parthenocissus quinquefolia var. 'engelmannii'
height: 8m (26 ft)
Dark green leaves turn burgundy-red in fall, blue fruit. Self clinging to any rough surface.
#1 - \$21.95

Virginia Creeper zone 3 ● ▸ ○
Parthenocissus quinquefolia
height: 10m (33 ft)
Dark green lobed leaves turn crimson in fall, blue fruit. Needs tie-up and support to climb.
#1 - \$21.95

KIWI, hardy

soil - prefers slightly acidic soil

Issai Hardy Kiwi zone 4 ▸ ○
Actinidia arguta 'Issai'
height: 6m (20 ft)
Hardy vine with small edible sweet green fruit (seedless). Glossy dark green leaves. Needs to be tied up and a sturdy support. Self-fruitful. Fruits on last years growth; annually prune stems back to 3-4 buds from last fruited stems in winter.
#1 - \$21.95

Variegated Kiwi (male) zone 3 ▸ ○
Actinidia kolomikta
height: 6m (20 ft)
Green, white-pink variegated foliage all summer; white flowers in spring, yellow fall colour. No fruit. Prune anytime of the year to control size.
#1 - \$21.95

WISTERIA, hardy

pruning - prune after flowering to shape and encourage more blooms and again in late fall

Summer Cascade Wisteria zone 4 ○

Wisteria macrostachya 'Betty Matthews'

height: 7.5m (25 ft)

Clusters of fragrant pea-like, dark lavender flowers on **NEW** growth from spring to fall. Needs a sturdy structure to grow on, can be heavy when in bloom. #2 - \$39.95

ROSES

TENDER ROSES – grafted

Guarantee Tender roses are guaranteed for the first growing season only. No over-winter guarantee applies

Planting Plant graft union 10cm (4 in.) below soil level, winter protection is required

Assorted varieties of Floribunda, Grandiflora and Hybrid Tea roses.

#1 - \$21.95 #2 - \$32.95

CLIMBING ROSES – hardy roses

pruning - late fall to early spring, best time is spring pruning - remove dead flowers when finished blooming

note – arching branches can be trained to climb on a sturdy support or grow into a graceful tall shrub

repeat bloom – first flush in June, then frequently until fall

everblooming – blooming non-stop from June until frost

Pink shades

Felix Leclerc *Canadian Artists* zone 3 ○

height: 1.8m (6 ft) spread: 1.5m (5 ft)

Large semi-double clusters of fuchsia pink blooms. Slight fragrance. Everblooming.

#2 - \$32.99

John Cabot *Explorer* zone 3 ○

height: 2.5m (8 ft) spread: 1.5m (5 ft)

Double orchid-pink to red-purple flowers fade to dark pink; slight fragrance. Repeat bloom.

#2 - \$32.99

John Davis *Explorer* zone 3 ○

height: 2m (7 ft) spread: 1.5m (5 ft)

Large double clear pink flowers against dark, leathery leaves. Slight fragrance. Repeat bloom.

#2 - \$32.99

SHRUB ROSES – hardy roses

soil – dry to moist (keep moist until established)

pruning - late fall to early spring, best time is spring pruning - remove dead flowers when finished blooming

repeat bloom – first flush in June, then frequently until fall

everblooming – blooming non-stop from June until frost

Orange / Peach / Scarlet shades

Morden Fireglow *Parkland* zone 3 ○

height: 75cm (2.5 ft) spread: 1m (3 ft)

Double large scarlet-red flowers with an orange glow. Red rosehips. Mild fragrance. Repeat bloom.

#2 - \$32.99

Olds College *Canadian Rose* zone 3 ○

height: 60cm (2 ft) spread: 1m (3 ft)

Double peach to apricot coloured flowers.

Round forming shape. Fragrant. Everblooming.

#2 - \$32.99

Hot Paprika *Oso Easy Rose* zone 3 ○

height: 60cm (2 ft) spread: 60cm (2 ft)

Glowing orange flowers, low mounding, lightly scented; disease resistant. Everblooming.

#2 - \$32.99

Pink shades

Aurora Borealis *Canadian Rose* zone 3 ○

height: 1m (3 ft) spread: 1m (3 ft)

Clusters of sunset pink flowers set against dark green, glossy foliage. Low-maintenance and black spot resistant. Mild fragrance. Everblooming

#2 - \$32.99

Canada Blooms *Canadian Rose* zone 4 ○

height: 1m (3 ft) spread: 60cm (2 ft)

Very full deep pink rose, very fragrant, strong long stems, dark green foliage. Everblooming.

#2 - \$32.99

Chinook Sunrise *Canadian Rose* zone 3 ○

height: 1.2m (4 ft) spread: 1.2m (4 ft)

Exotic coral flowers, low maintenance shrub rose, black spot tolerant. Mild fragrance. Repeat bloom.

#2 - \$32.99

Morden Blush *Parkland* zone 3 ○

height: 1m (3 ft) spread: 1m (3 ft)

Double hybrid tea like flower clusters; ivory-white blushed with light pink; delicate fragrance. Everblooming.

#2 - \$32.99

Prickly Wild *Rose Shrub* zone 2 ► ○

height: 1.2m (4 ft) spread: 1.2m (4 ft)

A hardy **Native Selection**, single pink flowers in June and July, followed by small rosehips in fall. Delicate fragrance.

#2 - \$32.99

Sunrise Sunset *Easy Elegance* zone 4 ○
height: 1m (3 ft) spread: 1.5m (5 ft)
Semi-double flowers with a blend of fuchsia-pink to apricot-yellow. Very fragrant. Everblooming.
#2 - \$32.99

Red shades

Adelaide Hoodless *Parkland* zone 2 ○
height: 1.2m (4 ft) spread: 1.2m (4 ft)
Semi-double bright red flowers, slight fragrance; red rosehips. Everblooming.
#2 - \$32.99

Canadian Shield *Canadian Rose* zone 3 ○
height: 1.5m (5 ft) spread: 1.2m (4 ft)
Double blooms, rich, red flowers. Canada's 150th birthday rose. Black spot resistant. Mild fragrance. Repeat bloom.
#2 - \$32.99

Emily Carr *Canadian Artists* zone 3 ○
height: 1m (3 ft) spread: 1.5m (5 ft)
Large, double deep red flowers. Strong fragrance. Everblooming.
#2 - \$32.99

Hope for Humanity *Parkland* zone 3 ○
height: 60cm (2 ft) spread: 60cm (2 ft)
Double, small wine-red hybrid tea like flowers; very lush blooms. Slight fragrance. Everblooming.
#2 - \$32.99

Never Alone *Canadian Rose* zone 3 ○
height: 75 cm (2.5 ft) spread: 60cm (2 ft)
Double, small deep red flowers with white center, very dark green foliage. Remove spent flowers for prolific bloom. Fragrant. Everblooming.
#2 - \$32.99

Super Hero *Oso Easy Rose* zone 4 ○
height: 1.2m (4 ft) spread: 1.2m (4 ft)
Rich red flowers, hybrid tea like, satiny dark green foliage; deer resistant. Lightly scented. Everblooming.
#2 - \$32.99

Winnipeg Parks *Parkland* zone 3 ○
height: 75cm (2.5 ft) spread: 75cm (2.5 ft)
Semi-double bright cherry-red flowers; slight fragrance; new leaves tinged red. Everblooming.
#2 - \$32.99

Reddish-violet / Mauve shades

Hansa *Rugosa hybrid* zone 2 ○
height: 1.8m (6 ft) spread: 1.5m (5 ft)
Double reddish violet flowers, very fragrant. Large rosehips. Drought tolerant. Everblooming.
#2 - \$32.99

Purple Pavement *Rugosa hybrid* zone 3 ○
height: 1m (3 ft) spread: 1m (3 ft)
Semi-double, purple-red flowers; very fragrant. Drought tolerant. Large rosehips. Repeat bloom.
#2 - \$32.99

White shades

Blanc Double de Coubert zone 2 ○
Rugosa hybrid
height: 1.5m (5 ft) spread: 1.5m (5 ft)
Double pure white flowers, very fragrant. Very large rosehips. Drought tolerant. Repeat bloom.
#2 - \$32.99

Morden Snowbeauty *Parkland* zone 3 ○
height: 1m (3 ft) spread: 1m (3 ft)
Semi-double white flowers, light fragrance. Disease resistant. Everblooming.
#2 - \$32.99

Yellow shades

Bill Reid *Canadian Artists* zone 3 ○
height: 1m (3 ft) spread: 1m (3 ft)
Semi-double golden yellow flowers. Good disease resistance. Mild fragrance. Repeat bloom.
#2 - \$32.99

Campfire *Canadian Artists* zone 3 ○
height: 1m (3 ft) spread: 1m (3 ft)
Semi-double flowers changing colours from yellow with petals edged in deep rosy pink, then turning white. Slight fragrance. Everblooming.
#2 - \$32.99

J.P. Connell *Explorer* zone 3 ○
height: 1.2m (4 ft) spread: 1.2m (4 ft)
Double soft yellow hybrid tea like flowers age to cream, dark red stamen; slight fragrance. Repeat bloom.
#2 - \$32.99

NEW Peach Lemonade *Bloomin Easy* zone 3 ○
height: 1m (3 ft) spread: 1m (3 ft)
Semi-double multi-colored flowers, opens yellow then gradually fades to shades of bluish pink and white. Slight fragrance. Everblooming
20cm (8 in.) - \$32.99

Morden Sunrise *Parkland* zone 3 ○
height: 75cm (2.5 ft) spread: 75cm (2.5 ft)
Semi-double flowers, dark orange over peachy yellow with pink blush fades to peach. Slight fragrance. Everblooming.
#2 - \$32.99

Persian Yellow *Shrub* zone 3 ○
height: 2m (7 ft) spread: 1.5m (5 ft)
Double golden flowers; slight fragrance. Drought tolerant. Blooms in June only.
#2 - \$32.99

SHRUBS

ARROWWOOD

pruning - late fall to early spring
pollination - another viburnum for berry production

Autumn Jazz Arrowwood zone 3 ► ○
Viburnum dentatum 'Ralph Senior'
height: 2.5m (8 ft) spread: 3m (10 ft)
Creamy white flower clusters in June, burgundy fall foliage; bright blue inedible berries. Upright spreading shrub. Likes moist to wet soil.
#2 - \$32.99

Blue Muffin Arrowwood zone 3 ● ● ○
Viburnum dentatum 'Christom'
height: 2m (7 ft) spread: 1.5m (5m ft)
Creamy white flower clusters in June, burgundy fall foliage; bright blue inedible berries. Upright shrub. Likes moist to wet soil.
#2 - \$32.99

ASHLEAF SPIREA, False Spirea

soil - dry to moist (keep moist until established)
pruning - prune and shape after flowering
note - drought & Chinook tolerant once established

Ash Leaf False Spirea zone 2 ● ● ○
Sorbaria sorbifolia
height: 2m (7 ft) spread: 2.5m (8 ft)
Fern-like leaves turn red in fall; tends to sucker, large plumes of white flowers. Great for a hedge, foundation plant and/or mass plantings.
#2 - \$32.99

NEW Mr. Mustard False Spirea zone 2 ► ○
Sorbaria sorbifolia 'SMNSSC'
height: 1m (3 ft) spread: 1.2m (4 ft)
A fabulously funky shrub, yellow, orange, red, pink and lime green foliage through spring and summer, white creamy flowers. Likes clay and alkaline soils. Tends to sucker.
20cm (8 in.) - \$32.99

Sem Ash Leaf False Spirea zone 3 ► ○
Sorbaria sorbifolia 'Sem'
height: 1m (3 ft) spread: 1.2m (4 ft)
Fern-like leaves with orange new growth matures to green, red fall colour, large plumes of white flowers. Tends to sucker.
#2 - \$32.99

BARBERRY

soil - dry to moist (keep moist until established)
pruning - late fall to spring, can also prune after fruiting to shape
note - drought tolerant once established
note - slow growing, thorny branches

Cherry Bomb Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Monomb'
height: 1.2m (4 ft) spread: 1.2m (4 ft)
Small deep crimson leaves with a coppery cast.
20cm (8 in.) - \$32.99 #5 - \$54.99

Concorde Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Concorde'
height: 60cm (2 ft) spread: 1m (3 ft)
New red leaves turn black-purple, dense branching. Compact shrub.
20cm (8 in.) - \$32.99 #5 - \$54.99

Emerald Carousel Barberrry zone 3 ► ○
Berberis x 'Tara'
height: 1.5m (5 ft) spread: 1.5m (5 ft)
Emerald green leaves turn orange to red-purple in fall. Arching branches.
20cm (8 in.) - \$32.99

Golden Nugget Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Monlers'
height: 30cm (12 in.) spread: 45cm (18 in.)
Very small golden foliage with orange tones, turns deeper hue in fall. Compact shrub.
20cm (8 in.) - \$32.99

Rose Glow Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Rose Glow'
height: 1.2m (4 ft) spread: 1m (3 ft)
Deep rosy-pink, creamy white mottled foliage matures to purple. Arching branches.
20cm (8 in.) - \$32.99 #5 - \$54.99 #10 - \$99.99

Royal Burgundy Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Gentry'
height: 60cm (2 ft) spread: 1m (3 ft)
Very small rich burgundy-red leaves darken to richer hues in fall.
20cm (8 in.) - \$32.99 #5 - \$54.99

Ruby Carousel Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Bailone'
height: 1.2m (4 ft) spread: 1m (3 ft)
Deep red-purple foliage turns vibrant red in fall; arching branches. Fast growing.
20cm (8 in.) - \$32.99

Sunsation Japanese Barberrry zone 3 ► ○
Berberis thunbergii 'Monry'
height: 1m (3 ft) spread: 1m (3 ft)
New leaves emerge green, turn golden with an orange cast. Very small leaves, very compact shrub.
20cm (8 in.) - \$32.99 #5 - \$54.99

BIRCH

pruning - prune in July when in full leaf

Dwarf Arctic Birch zone 2 ○

Betula nana

height: 60cm (2 ft) spread: 60cm (2 ft)

Small rounded leaves on a small upright shrub; yellow fall colour. Requires moist to wet soil. **Native.**

#2 - \$32.99

Cesky Gold Dwarf Birch zone 2 ◐ ○

Betula x plettekei 'Golden Treasure'

height: 1.2m (3 ft) spread: 1m (3 ft)

Chartreuse foliage, new growth red, yellow, orange; fan like shape. Extreme cold hardy and drought tolerant. Slow growing.

20cm (8 in.) - \$32.99

BOXWOOD

pruning - late winter to early spring, can also prune to shape in early summer

Calgary Boxwood zone 3 ◐ ●

Buxus x 'Calgary'

height: 1m (3 ft) spread: 1m (3 ft)

Dense oval shrub with glossy green foliage. Perfect for hedging, topiary, or in a border. Keep sheltered.

#1 - \$19.99

BROOM

soil - slightly acidic

pruning - only after flowering

note - evergreen shrub

Cyni Broom, Spike Broom zone 4 ○

Cytisus nigricans 'Cyni'

height: 1.2m (4 ft) spread: 1m (3 ft)

Long lasting yellow flowers in summer; cut back for more flowers in fall. Upright growing shrub.

#2 - \$32.99

Dwarf Broom zone 4 ○

Genista lydia

height: 50cm (20 in.) spread: 1m (3 ft)

Long blooming yellow pea-like flowers; aqua bluish green foliage, excellent low mounding shrub. Drought tolerant. Does not need to be pruned.

#2 - \$32.99

NEW Purple Broom zone 3 ◐ ○

Cytisus purpureus

height: 45cm (18 in.) spread: 1m (3 ft)

Low ground cover, small dark green-blue foliage, light purple-pink flowers in mid-spring. Tolerates clay soil, salt tolerant and drought tolerant when established.

#1 - \$19.99

Yellow Broom zone 3 ◐ ○

Cytisus decumbens

height: 15cm (6 in.) spread: 1m (3 ft)

Ground hugging, sprawling shrub with very small leaves on stiff branches, long lasting bright yellow blooms in early spring. Prune after flowering.

#1 - \$19.99

BURNING BUSH

pruning - late fall to early spring

note - orange to red seed pods

Dwarf Burning Bush zone 4 ◐ ● ○

Euonymus alatus 'Compactus'

height: 1.5m (5 ft) spread: 1.8m (6 ft)

Brilliant red fall foliage, dense rounded shrub; corky ridged bark, tiny yellowish green flowers.

20cm (8 in.) - \$32.99 #5 - \$49.99

Fire Ball Burning Bush zone 4 ◐ ○

Euonymus alatus 'Select'

height: 1.5m (5 ft) spread: 1.2m (4 ft)

Fiery red fall foliage; ridged bark, green flowers. Improved hardiness over Dwarf Burning Bush.

20cm (8 in.) - \$32.99 #5 - \$49.99

Turkestan Burning Bush zone 3 ◐ ● ○

Euonymus nanus 'Turkestanicus'

height: 1m (3 ft) spread: 1m (3 ft)

Narrow green leaves turn dark red in fall, pinkish red in shade; semi-evergreen shrub with sprawling branches, tiny star-like pink flowers.

20cm (8 in.) - \$32.99

Unforgettable Fire Burning Bush zone 4 ◐ ○

Euonymus alatus 'Hayman'

height: 1.8m (6 ft) spread: 1.5m (5 ft)

Outstanding shades of fuchsia red in fall, best colour on new wood. Fine branching.

20cm (8 in.) - \$32.99

CARAGANA, Peashrub

soil - tolerates very alkaline soil

pruning - early spring or after flowering to shape

note - drought & Chinook tolerant, nitrogen fixing nodules

Globe Caragana zone 2 ◐ ○

Caragana frutex 'Globosa'

height: 1m (3 ft) spread: 1m (3 ft)

Dense shrub with bright green leaves, small yellow flowers in May. Tolerant of drought, Chinooks and alkaline soil. No seeds. Does not sucker.

20cm (8 in.) - \$32.99

CHOKEBERRY

pruning - best when pruned in early spring
pruning - after flowering to retain shape

Ground Hug Chokeberry zone 3 ► ○

Aronia melanocarpa 'UCONNAM012'

height: 30cm (1 ft) spread: 1m (3 ft)

Extremely tough, dense ground-cover, green glossy foliage, white flowers in spring followed by dark purple berries in fall. Vivid red fall colour.

#2 - \$32.99

Low Scape Mound Chokeberry zone 3 ► ○

Aronia melanocarpa 'UCONNAM165'

height: 60cm (2 ft) spread: 60cm (2 ft)

Showy white flowers in spring, compact low mounding habit. Black berries from late summer to fall. Red fall colour.

#2 - \$32.99

Low Scape Snowfire Chokeberry zone 3 ○

Aronia melanocarpa 'SMNAMPEM'

height: 1.2m (4 ft) spread: 1.2m (4 ft)'

A mid-sized mounded shrub, glossy green foliage, small white flowers in spring, followed by dark blue berries; red fall foliage. Drought and salt tolerant. Attracts bees and butterflies.

20cm (8 in.) - \$32.99

COTONEASTER

pruning - late fall to early spring
pruning - hedge can be pruned 2-3 times in the growing season to retain shape and desired height

Autumn Inferno Cotoneaster zone 3 ► ○

Cotoneaster x 'Bronfire'

height: 1.8m (6 ft) spread: 1.8m (6 ft)

Upright shrub, green glossy foliage, orange-red fall colour, pink-white blooms in spring, followed by red ornamental fruit in summer.

#2 - \$32.99

Hedge Cotoneaster zone 2 ● ► ○

Cotoneaster lucidus

height: 3m (10 ft) spread: 2m (7 ft)

Glossy leaves turn orange-red in fall; tiny pink flowers, black inedible berries; drought & Chinook tolerant once established. Tolerates heavy pruning.

#1 - \$12.99 #2 - \$26.99

CRANBERRY

pruning - late fall to early spring
note - plant several for better fruit production
note - berries best suited for jellies

Bailey Compact Amer. Cranberry zone 3 ► ○

Viburnum trilobum 'Bailey Compact'

height: 1.5m (5 ft) spread: 1.5m (5 ft)

Dense upright shrub, large white flower clusters, inedible red berries. Excellent red fall colour.

20cm (8 in.) - \$32.99 #5 - \$49.99

Dwarf European Cranberry

zone 3 ► ●

Viburnum opulus 'Nanum'

height: 60cm (2 ft) spread: 60cm (2 ft)

Dense mounding shrub, retains shape without trimming; few flowers or fruit. Purplish fall colour.

20cm (8 in.) - \$32.99

Redwing American Cranberry

zone 2 ► ○

Viburnum trilobum 'JN Select'

height: 3m (10 ft) spread: 2.5m (8 ft)

Brick-red new leaves, large white flowers, dense shrub. Tart scarlet fruit. Ripe in August. Self-fruitful.

20cm (8 in.) - \$32.99

CURRENT

soil - moist to dry

Alpine Currant

zone 2 ● ► ○

Ribes alpinum

height: 1.5m (5 ft) spread: 1.8m (6 ft)

Dense shrub when sheared frequently, glossy bright green leaves in summer and fall. Makes an excellent hedge. Can be pruned anytime of year to retain shape.

#1 - \$14.99 #2 - \$26.99

Golden Flowering Currant

zone 2 ● ► ○

Ribes aureum

height: 1.8m (6 ft) spread: 1.2m (5 ft)

Upright shrub with arching branches, bright green lobed leaves turn purple in fall; fragrant yellow flowers in spring followed by black berries in summer. **Native.** Prune after flowering to shape.

#2 - \$32.99

DIERVILLA- Bush Honeysuckle

pruning - late summer to early spring

FireFly Nightglow Diervilla

zone 4 ► ○

Diervilla splendens 'El Madrigal'

height: 1m (3ft) spread: 1m (3 ft)

Abundant bright yellow blooms throughout late spring and summer. Dark purple-red foliage intensifies in fall; compact mounded growth habit. Drought tolerant.

#2 - \$32.99

DOGWOOD

soil - moist to wet

pruning - late fall to early spring for a hard prune

pruning - late spring to mid summer to retain shape

Arctic Fire Dogwood

zone 2 ► ○

Cornus stolonifera 'Farrow'

height: 1.2m (4 ft) spread: 1m (3 ft)

Brilliant red bark for winter colour, clouds of white flowers; dense small shrub. Does not sucker.

20cm (8 in.) - \$32.99

Arctic Fire Yellow Dogwood zone 2 ◐ ○
Cornus stolonifera 'SMNCSBD'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Cheerful yellow bark for winter colour, dark green leaves, white flowers. Does not sucker.
 20cm (8 in.) - \$32.99

Ivory Halo Dogwood zone 3 ◐ ○
Cornus alba 'Bailhalo'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Deep red bark. Mint-green leaves with creamy white margins, blue-white berries. Compact shrub.
 #2 - \$32.99 #5 - \$49.99 #10 - \$99.99

Neon Burst Dogwood zone 2 ◐ ○
Cornus alba 'ByBoughen'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Scarlet red stems, bright golden and green foliage retains good colour in extreme heat. Soft tones of purple, red, yellow, orange in fall.
 20cm (8 in.) - \$32.99 #5 - \$49.99

Red Osier Dogwood zone 2 ● ◐ ○
Cornus sericea
 height: 3m (10 ft) spread: 3m (10 ft)
 Deep red bark, bluish white berries, purple reddish fall colour. Reclamation shrub. **Native.**
 #2 - \$32.99

Siberian Dogwood zone 2 ● ◐ ○
Cornus alba 'Sibirica'
 height: 2m (7 ft) spread: 2m (7 ft)
 Bright red bark. Leaves turn red in fall, blue berries.
 #2 - \$32.99

ELDER

soil - dry to moist
 pruning - late fall to early spring
 pruning - remove older canes to the ground every 2-3 years to encourage new canes

Black Lace Elder zone 4 ◐ ○
Sambucus nigra 'Eva'
 height: 2m (7 ft) spread: 1.8m (6 ft)
 Finely cut purple-black foliage, creamy pink flowers in late June followed by black berries. Keep soil moist.
 #2 - \$32.99

Golden Tower Elder zone 3 ◐ ○
Sambucus nigra 'Janderboer001'
 height: 3m (10 ft) spread: 1.2m (4 ft)
 Narrow upright growth habit; yellow-green foliage, fine textured, white flowers in late spring followed by reddish berries.
 #2 - \$32.99

Laced Up Elder zone 4 ◐ ○
Sambucus nigra 'SNR1292'
 height: 2.5m (8 ft) spread: 1.2m (4 ft)
 Narrow upright growth habit, feathery black foliage; pink blooms along broomstick stems, followed by black berries in fall.
 #2 - \$32.99

Lemony Lace Elder zone 3 ◐ ○
Sambucus racemosa 'SMNSRD04'
 height: 1.2m (4 ft) spread: 1.5m (5 ft)
 Very fine foliage, deeply cut chartreuse leaves with new red growth, white flowers followed by inedible deep red berries.
 #2 - \$32.99

Red Berried Elder zone 3 ◐ ○
Sambucus racemosa
 height: 3m (10 ft) spread: 3m (10 ft)
 Bright green leaves turn yellow in fall, creamy white flowers, inedible red berries in fall.
 #2 - \$32.99

FORSYTHIA

pruning - prune only after flowering

Northern Gold Forsythia zone 3 ◐ ○
Forsythia ovata 'Northern Gold'
 height: 2m (7 ft) spread: 2m (7 ft)
 Golden yellow flowers before leafing out. Keep moist, well-drained and sheltered.
 #2 - \$32.99

HYDRANGEA

soil - moist, well-drained; prefers acidic soil
 location - east facing is best, tolerates some shade
pruning - in late winter - see varieties
blooms on NEW wood - cut stems to 15cm (6 in.)
blooms on OLD & NEW wood - cut few of the oldest stems at ground level

Annabelle Hydrangea zone 3 ◐
Hydrangea arborescens 'Annabelle'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Very large creamy white flowers in summer on **NEW** wood. Excellent for cutting and drying.
 #2 - \$32.99

Bloomstruck Hydrangea zone 4 ◐
Hydrangea macrophylla 'PiiHM-ii'
 height: 1.2m (4 ft) spread: 1.5m (5 ft)
 Endless summer series, violet blue or pink blooms depending on soil pH; glossy deep green leaves, red fall colour. Blooms on **OLD & NEW** wood.
 20cm (8 in.) - \$32.99

Bobo Hydrangea zone 3 ◐
Hydrangea paniculata 'ILVOBO'
 height: 1m (3 ft) spread: 1m (3 ft)
 Very large creamy white flowers lengthen as they bloom, may turn pinkish in fall; flowers on **NEW** wood until frost. Adapts to many soil types.
 20cm (8 in.) - \$32.99

Endless Summer Hydrangea zone 4 ◐
Hydrangea macrophylla 'Bailmer'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Large pink blooms in alkaline soil, blue blooms in acidic soil; flowers on **OLD & NEW** wood.
 20cm (8 in.) - \$32.99

Fire Light Hydrangea zone 3 ●●○
Hydrangea paniculata 'SMHPFL'
 height: 1.8m (6 ft) spread: 1.8m (6 ft)
 Huge creamy-white to rich deep pink flowers on
NEW wood from late summer to fall, sturdy stems.
 20cm (8 in.) - \$32.99 #5 - \$54.99

Fire Light Tidbit Hydrangea zone 3 ●○
Hydrangea paniculata 'SMNHPFL'
 height: 1m (3 ft) spread: 1m (3 ft)
 Prolific white blooms maturing to pink and red,
 strong stems; compact rounded shrub. Blooms on
NEW wood from late summer to fall.
 20cm (8 in.) - \$32.99

Incrediball Hydrangea zone 3 ●
Hydrangea arborescens 'Abetwo'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Big blooms emerge lime green, change to
 pure white and mature to green, sturdy stems;
 blooming on **NEW** wood from mid summer to fall.
 20cm (8 in.) - \$32.99 #5 - \$54.99

NEW Incrediball Blush Hydrangea zone 3 ●○
Hydrangea arborescens 'NCHA6'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Improved 'Annabelle' hydrangea with stronger
 stems, mounded growth, large pink flowers;
 blooms on **NEW** wood from midsummer to fall.
 #2 - \$32.99

NEW Invincibelle Garnetta Hydrangea zone 3 ●○
Hydrangea arborescens 'NCHA6'
 height: 75cm (2.5 ft) spread: 75cm (2.5 ft)
 Compact rounded shrub, sturdy stems, mophead
 pink flowers; blooms on **NEW** wood. Blooms later
 than other 'Invincibelle' series hydrangeas.
 20cm (8 in.) - \$32.99 #5 - \$54.99

Invincibelle Limetta Hydrangea zone 3 ●
Hydrangea arborescens 'NCHA8'
 height: 1m (3 ft) spread: 1m (3 ft)
 Dwarf rounded shrub, lime green flowers early,
 turning jade green late summer. Blooms on **NEW**
 wood; strong stemmed.
 20cm (8 in.) - \$32.99 #5 - \$54.99

Little Lime Hydrangea zone 3 ●○
Hydrangea paniculata 'Jane'
 height: 1m (3 ft) spread: 1m (3 ft)
 Greenish-white flowers turn a pink hue in fall,
 blooming on **NEW** wood in summer.
 20cm (8 in.) - \$32.99 #5 - \$54.99

NEW Little Lime Punch Hydrangea zone 3 ●○
Hydrangea paniculata 'SMNHPH'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Compact mounded shrub, strong stems, dark
 green foliage; flowers emerge lime green,
 maturing from the bottom up in an array of white,
 light pink and rich Hawaiian Punch red; blooms on
NEW wood.
 20cm (8 in.) - \$32.99

Limelight Prime Hydrangea zone 3 ●○
Hydrangea paniculata 'SMNHPH'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Large green blooms mature to a pink-red as they
 age, blooms earlier than Limelight; strong stems,
 very hardy. Blooms on **NEW** wood.
 20cm (8 in.) - \$32.99 #5 - \$54.99

Pinky Winky Hydrangea zone 3 ●●
Hydrangea paniculata 'DvPinky'
 height: 1.8m (6 ft) spread: 1.8m (6 ft)
 White flowers turn deep pink. Bright red stems,
 red-purple tinge on fall foliage. Blooms in mid
 summer on **NEW** wood; colour not affected by
 soil pH.
 20cm (8 in.) - \$32.99 #5 - \$54.99

NEW Tiny Quick Fire Hydrangea zone 3 ●○
Hydrangea paniculata 'SMNHPH'
 height: 1m (3 ft) spread: 1m (3 ft)
 Dwarf form of Quick Fire hydrangea; upright
 growth habit, flowers emerge white then mature
 to red-pink. Blooms on **NEW** wood. Flowers earlier
 than most other hydrangea varieties.
 20cm (8 in.) - \$32.99

LILAC

soil – dry to moist (keep moist until established)
 roots – shallow, wide spreading
 note – drought & Chinook tolerant once established
 pruning – after flowering
 top grafted & tree form remove any shoots on stem
 for a clean look

American Lilac hybrids *Syringa x hyacinthiflora*
 These cultivars bloom more heavily and
 consistently and 10 days earlier than French
 hybrid lilacs. Very long flower panicles, heavy
 fragrance. Limited suckering. Can be trained to a
 small tree when young.

Dwarf Lilac hybrids *Syringa meyeri*, *S. patula*. These
 cultivars do not sucker, if NOT mulched. They are
 excellent for a low informal hedge.

French Lilac hybrids *Syringa vulgaris* Hybrids of the
 old fashioned Common lilac, large flowers in June
 with a heavy fragrance. Tend to sucker.

Blue / Lavender shades

Common Lilac zone 2 ●○
Syringa vulgaris
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Old-fashioned lilac, fragrant lavender flowers;
 tends to sucker freely. Cultivation up to hedge
 can control suckering. Drought tolerant once
 established.
 #1 - \$14.99

Dwarf Korean Lilac zone 3 ▸ ○
Syringa meyeri 'Palibin'
 height: 1.2m (4 ft) spread: 1.5m (5 ft)
 Rosy lavender flowers in June; small dark green leaves. Compact shrub. Slow growing.
 20cm (8 in.) - \$32.99 #5 - \$49.99

Dwarf Korean Lilac top graft zone 3 ▸ ○
Syringa meyeri 'Palibin'
 height: 2.5m (8 ft) spread: 1.5m (5 ft)
 Rosy lavender flowers in June; small dark green leaves. Compact shrub. Top grafted onto a 1.2m (4 ft) villosa lilac trunk. Slow growing.
 #5 - \$119.99

Katherine Havemeyer French Lilac zone 3 ▸ ○
Syringa vulgaris 'Katherine Havemeyer'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Double deep purplish to lavender-pink flowers.
 #2 - \$32.99

Miss Kim Lilac zone 3 ▸ ○
Syringa patula 'Miss Kim'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Purple buds, icy blue flowers in June, very fragrant; dark green leaves turn dark red in fall. Slow growing
 20cm (8 in.) - \$32.99 #5 - \$49.99

Miss Kim Lilac top graft zone 3 ▸ ○
Syringa patula 'Miss Kim'
 height: 2.7m (9 ft) spread: 1.5m (5 ft)
 Purple buds, icy blue flowers in June, heavy fragrance; dark green leaves turn dark red in fall. Top grafted onto a 1.2m (4 ft) villosa lilac trunk. Slow growing.
 #5 - \$119.99

President Grevy French Lilac zone 3 ▸ ○
Syringa vulgaris 'President Grevy'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Double lavender-blue flowers with lighter margins, deep violet buds.
 #2 - \$32.99

Blue-purple / Violet shades

Agincourt Beauty French Lilac zone 3 ▸ ○
Syringa vulgaris 'Agincourt Beauty'
 height: 2m (7 ft) spread: 2.5m (8 ft)
 Single deep violet-purple flowers, deep purple buds.
 #2 - \$32.99

Pocahontas American Lilac zone 2 ▸ ○
Syringa x hyacinthiflora 'Pocahontas'
 height: 3m (10 ft) spread: 3m (10 ft)
 Single deep violet flowers, purple buds.
 #2 - \$32.99

Scentara Double Blue American Lilac zone 2 ○
Syringa x hyacinthiflora 'SMNSHBBL'
 height: 2.5m (8 ft) spread: 2.5m (8 ft)
 Double purple-blue blooms in spring; heavy bloomer, very fragrant. Disease resistant.
 20cm (8 in.) - \$32.99

Scentara Pura American Lilac zone 2 ○
Syringa x hyacinthiflora 'SMNSHSO'
 height: 1.8m (6 ft) spread: 1.8 (6 ft)
 Pure deep purple flowers, blooms in spring, very fragrant. Disease resistant.
 20cm (8 in.) - \$32.99

Sensation French Lilac zone 2 ▸ ○
Syringa vulgaris 'Sensation'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Single purple flowers edged in white.
 #2 - \$32.99

Pink shades

Beauty of Moscow French Lilac zone 3 ▸ ○
Syringa vulgaris 'Krasavitsa Moskv'y'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Double pale pink to white blooms.
 #2 - \$32.99

Bloomerang Dwarf Pink Lilac zone 3 ▸ ○
Syringa x 'SMNJRPI'
 height: 1m (3 ft) spread: 1.2m (4 ft)
 Dwarf rounded shrub, sweet smelling pure pink flowers, blooms in early spring and re-blooms throughout summer and fall.
 20cm (8 in.) - \$32.99

Late Lilac zone 2 ▸ ○
Syringa villosa
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Fragrant rose-mauve flowers in late spring, upright spreading habit with deep roots, non-suckering variety. Makes an excellent hedge.
 #1 - \$14.99

Tinkerbelle Lilac zone 3 ▸ ○
Syringa x 'Bailbelle'
 height: 1.5m (5 ft) spread: 1.2m (4 ft)
 Wine-red buds open to single deep pink flowers, spicy fragrance.
 #2 - \$32.99 #5 - \$49.99

Red / Red-purple shades

Charles Joly French Lilac zone 3 ▸ ○
Syringa vulgaris 'Charles Joly'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Double magenta flowers, purple buds.
 #2 - \$32.99

Bloomerang Dark Purple Lilac zone 3 ▸ ○
Syringa x 'SMSJBP7'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Dark purplish plum flowers from spring until frost. Remove side shoots to retain form.
 20cm (8 in.) - \$32.99 #5 - \$54.99

Ludwig Spaeth French Lilac zone 2 ► ○
Syringa vulgaris 'Ludwig Spaeth'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Single reddish purple flowers.
 #2 - \$32.99

White shades

Mme. Lemoine French Lilac zone 3 ► ○
Syringa vulgaris 'Mme. Lemoine'
 height: 3m (10 ft) spread: 2.5m (8 ft)
 Double creamy white flowers.
 #2 - \$32.99

Mount Baker American Lilac zone 2 ► ○
Syringa x hyacinthiflora 'Mount Baker'
 height: 3m (10 ft) spread: 3m (10 ft)
 Single white flowers.
 #2 - \$32.99

MAGNOLIA

Spring Welcome Magnolia zone 3 ► ○
Magnolia x loebneri 'Ruth'
 height: 4.5m (15 ft) spread: 4.5m (15 ft)
 Bright clear semi-double blooms in spring, dark green foliage, compact rounded growth habit; coppery-bronze fall colour. Prune after flowering for shape and size. Prefers moist well-drained soil.
 #2 - \$36.99

MOCKORANGE

pruning (if required) – after flowering

Minnesota Snowflake Mockorange zone 3 ► ○
Philadelphus virginialis 'Minnesota Snowflake'
 height: 1.8m (6 ft) spread: 1.5m (5 ft)
 Double white flowers in June, very fragrant.
 Upright shrub with arching branches.
 #2 - \$32.99

Snowbelle Mockorange zone 3 ► ○
Philadelphus x 'Snowbelle'
 height: 1.2m (4 ft) spread: 1m (3 ft)
 Double white flowers in June, most prolific, very fragrant. Upright shrub with arching branches.
 #2 - \$32.99

Waterton Mockorange zone 3 ► ○
Philadelphus lewisii 'Waterton'
 height: 2m (7 ft) spread: 1.5m (5 ft)
 Single white flowers in June, slight fragrance.
 Upright rounded shrub with arching branches.
 Drought & Chinook tolerant once established.
Native Selection.
 #2 - \$32.99

NANNYBERRY

pruning (if required) – after flowering

Nannyberry zone 2 ► ○
Viburnum lentago
 height: 5m (17 ft) spread: 3m (10 ft)
 White flower clusters in spring; blue berries for the birds; shiny green foliage turns red in fall. Tolerates dry and wet soil. Can be trained into a tree.
 #2 - \$32.99

NINEBARK

soil – dry (keep moist until established)
 pruning – late fall to early spring
 pruning – in season pruning to retain shape
 note – drought tolerant once established
 flowers – white or blushed pink, button-like clusters
 feature – flaking bark shows off in winter

Amber Jubilee Ninebark zone 3 ► ○
Physocarpus opulifolius 'Jefam'
 height: 1.8m (6 ft) spread: 1.5m (5 ft)
 New foliage yellow and orange, maturing to lime-green to purple fall colour.
 #2 - \$32.99

Burgundy Candy Ninebark zone 3 ► ○
Physocarpus opulifolius 'Podaras 1'
 height: 1m (3 ft) spread: 1m (3 ft)
 Rich burgundy-red foliage, small white flowers, red seed capsules; upright rounded growth. Deer resistant. Formerly known as Maroon Sunset.
 #2 - \$32.99

Center Glow Ninebark zone 3 ► ○
Physocarpus opulifolius 'Center Glow'
 height: 2.5m (8 ft) spread: 2.5m (8 ft)
 Golden spring foliage matures to burgundy.
 #2 - \$32.99

Dart's Gold Ninebark zone 3 ► ○
Physocarpus opulifolius 'Dart's Gold'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Golden yellow leaves mature to lime green; golden hue with a bronze tint in fall.
 #2 - \$32.99 #5 - \$49.99

Diabolo Ninebark zone 3 ► ○
Physocarpus opulifolius 'Monlo'
 height: 2.5m (8 ft) spread: 2m (7 ft)
 Dark purple leaves turn golden-bronze in fall.
 #2 - \$32.99

Diabolo Ninebark tree form zone 3 ► ○
Physocarpus opulifolius 'Monlo'
 height: 2.5m (8 ft) spread: 2m (7 ft)
 Dark purple leaves turn golden-bronze in fall.
 Remove side shoots to retain tree form shape.
 #5 - \$99.99

Yellow Gem Potentilla zone 2 ▶ ○
 height: 45cm (18 in.) spread: 1m (3 ft)
 Bright yellow, ruffled flowers, gray-green leaves on red new stems, low spreader. Early bloomer.
 #2 - \$32.99

RHODODENDRON

soil – moist, acidic; mix organic soil and peat moss into the soil (half organic, half peat moss)
 pruning (if required) – after flowering
 note – keep sheltered, mulch for winter

PJM Elite Rhododendron zone 3 ▶ ○
Rhododendron x 'PJM Elite'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Lavender-pink tubular flowers in early spring; green foliage turns purple in fall. Slow growing.
 #1 - \$19.99

RUSSIAN ALMOND

pruning - after flowering to shape

Russian Almond zone 2 ▶ ○
Prunus tenella
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Single pink flowers in early spring, slender green leaves turn bronze in fall; inedible nut. Tends to sucker. Drought & Chinook tolerant.
 #2 - \$32.99

SANDCHERRY Ornamental

pruning - late fall to early spring

Purpleleaf Sandcherry zone 3 ○
Prunus x cistena
 height: 2m (7 ft) spread: 2m (7 ft)
 Deep purple-red leaves, small pink flowers in early spring, some fruit. Dark red new shoots, upright open shrub. Drought tolerant once established. This is **NOT** a pollinizer for fruit trees or shrubs.
 #2 - \$32.99 #5 - \$49.99

SERVICEBERRY, Saskatoon

pruning - late fall to early spring

Standing Ovation Serviceberry zone 2 ○
Amelanchier alnifolia 'Obelisk'
 height: 4.5m (15 ft) spread: 1.2m (4 ft)
 Narrow upright shrub, white flowers in spring, deep green foliage emerges red in spring, turning yellow-orange in fall. Edible berries.
 #3 - \$44.99

SMOKEBUSH

pruning - late fall to early spring

Winecraft Black Smokebush zone 4 ▶ ○
Cotinus coggygia 'NCC01'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 A dwarf variety with purple foliage, turns near black for summer, soft pink blooms. Coppery in fall.
 20cm (8 in.) - \$32.99

SNOWBALL Common

pruning - after flowering to shape

Snowball Viburnum zone 2 ○
Viburnum opulus 'Roseum'
 height: 3m (10 ft) spread: 3m (10 ft)
 Large white flower balls in June; bright green leaves turn purplish red in fall. Vigorous shrub.
 #2 - \$32.99

SNOWBERRY

pruning - late fall to early spring

Proud Berry Coralberry zone 3 ▶ ○
Symphoricarpos x 'Sofie'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Blue-green foliage, pink-white bell-shaped flowers followed by pink inedible berries; attracts birds. Deer resistant.
 20cm (8 in.) - \$32.99

Snowberry zone 3 ● ▶ ○
Symphoricarpos albus
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Small white flowers, white inedible berries, blue-green foliage turns yellow in fall; tends to sucker. Upright growing shrub. **Native.**
 #2 - \$32.99

SPIREA

soil – dry to moist (keep moist until established)
 pruning (if required) -
 white spring flowers – right after flowering
 pink & crimson flowers – when dormant

White spring flowers

Bridalwreath Spirea zone 3 ▶ ○
Spiraea x vanhouttei 'Renaissance'
 height: 1.8m (6 ft) spread: 2m (7 ft)
 Clouds of white flower clusters in May on arching branches, fine green leaves turn orange-red in fall.
 #2 - \$32.99

Fairy Queen, Three-lobed Spirea zone 3 ▶ ○
Spiraea trilobata 'Fairy Queen'
 height: 1m (3 ft) spread: 1m (3 ft)
 White flower clusters in May, dark blue-green foliage, orange-red in fall. Upright spreading shrub.
 #2 - \$32.99

Glow Girl Birchleaf Spirea zone 3 ► ○
Spiraea betulifolia 'Tor Gold'
 height: 1m (3 ft) spread: 1.2m (4 ft)
 Bright white flower clusters in spring; birch-like leaves; bright yellow new growth turns yellow-green in summer, yellow orange and red in fall.
 #2 - \$32.99 #5 - \$49.99

Tor Birchleaf Spirea zone 3 ► ○
Spiraea betulifolia 'Tor'
 height: 1m (3 ft) spread: 1m (3 ft)
 White flower clusters on branch tips in May; birch-like leaves turn orange-red in fall. Deer resistant.
Native selection.
 #2 - \$32.99

Pink / Crimson summer flowers

Double Play Doozie Spirea zone 3 ► ○
Spiraea x japonica 'NCSX2'
 height: 1m (3 ft) spread: 1m (3 ft)
 Reddish purple flowers, blooms non-stop, foliage emerges red then turns green. No dead heading needed. Drought tolerant.
 20cm (8 in.) - \$32.99 #5 - \$49.99

Goldflame Spirea zone 3 ► ○
Spiraea x bumalda 'Goldflame'
 height: 75cm (2.5 ft) spread: 1m (3 ft)
 Copper-red new leaves mature to greenish gold, copper-orange in fall; crimson flower clusters in July. Drought and Chinook tolerant once established.
 #2 - \$32.99

NEW Lemon Princess Spirea zone 3 ► ○
Spiraea x japonica 'Lemon Princess'
 height: 60cm (2 ft) spread: 1m (3 ft)
 Dense compact shrub, lime-green leaves, clusters of pink flowers in early summer; coppery-orange fall colour. Deer resistant.
 #2 - \$32.99

Little Princess Spirea zone 3 ► ○
Spiraea x japonica 'Little Princess'
 height: 60cm (2 ft) spread: 1m (3 ft)
 Dainty rose-pink flower clusters in July, small mint-green leaves turn dark red in fall. Compact shrub.
 #2 - \$32.99

Magic Carpet Spirea zone 3 ► ○
Spiraea x japonica 'Walbuma'
 height: 45cm (18 in.) spread: 60cm (2 ft)
 Golden leaves with red tips turn russet-red in fall; deep pink flower clusters in June. Compact shrub.
 #2 - \$32.99

Pink Sparkler Birchleaf Spirea zone 3 ○
Spiraea betulifolia 'COURISPI01'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Beautiful pink flowers in early summer, re-blooms in fall; yellow-green foliage, turns burgundy-red in fall. Maintains rounded shape.
 #2 - \$32.99

Shirobana Spirea zone 3 ► ○
Spiraea x japonica 'Shibori'
 height: 75cm (2.5 ft) spread: 1m (3 ft)
 White, pink and red flower clusters from late spring to mid summer; deep green leaves turn red in fall.
 #2 - \$32.99

Superstar Spirea zone 3 ► ○
Spiraea x bumalda 'Superstar'
 height: 1m (3 ft) spread: 1.2m (4 ft)
 Dark red new leaves turn dark green, then copper-bronze in fall; pink flowers from spring to late summer. Keep moist.
 #2 - \$32.99

SUMAC

roots – shallow, wide spreading, tend to sucker
 pruning – late fall to early spring
 note – male & female flowers on separate plants
 note – cone shaped fruit on female plants

Staghorn Sumac zone 3 ► ○
Rhus typhina
 height: 3m (10 ft) spread: 4m (13 ft)
 Long dark green leaves turn orange to red in fall; thick velvety stems. Drought tolerant.
 #2 - \$32.99

Tiger Eyes Cutleaf Sumac zone 4 ► ○
Rhus typhina 'Bailtiger'
 height: 1.8m (6 ft) spread: 1.8m (6 ft)
 Chartreuse new foliage changes to lemon; yellow to scarlet fall colour. Not invasive. Keep moist.
 20cm (8 in.) - \$32.99 #5 - \$54.99

WAYFARING TREE

pruning (if required) – after flowering

Mochican Wayfaring Tree zone 3 ► ○
Viburnum lantana 'Mochican'
 height: 2m (7 ft) spread: 2m (7 ft)
 Large white flower clusters in spring, large hairy gray-green leaves turn purple-bronze in fall; black berries; drought and Chinook tolerant.
 #2 - \$32.99

WEIGELA

soil – moist
 pruning – after flowering for dense growth; may re-bloom

Midnight Wine Shine Weigela zone 4 ► ○
Weigela florida 'SMNWFMS'
 height: 30cm (1 ft) spread: 60cm (2 ft)
 Dwarf shrub with a tidy mound appearance; darker, shinier burgundy leaves, pink flowers in spring. Ideal border plant.
 20cm (8 in.) - \$32.99

Polka Weigela zone 3 ▶ ○
Weigela florida 'Polka'
 height: 1.2 (4 ft) spread: 1.5m (5 ft)
 Profuse soft pink flowers in spring, thick dark green foliage; rounded habit. Prefers moist well-drained soil.
 #2 - \$32.99

Spilled Wine Weigela zone 4 ▶ ○
Weigela florida 'Bokraspiwi'
 height: 60cm (2 ft) spread: 1m (3 ft)
 Dark red wavy foliage, hot pink blooms in spring, low mounding shrub. Deer resistant.
 20cm (8 in.) - \$32.99

Tango Weigela zone 3 ○
Weigela florida 'Tango'
 height: 60cm (2 ft) spread: 1m (3 ft)
 Cherry-red flowers, purple new leaves turn to bronze. Upright growth habit.
 #2 - \$32.99

WILLOW

soil – moist to wet
 pruning – late fall to early spring
 note – best where soil moisture is readily available

Blue Fox Willow zone 3 ▶ ○
Salix brachycarpa 'Blue Fox'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Very narrow bluish-gray leaves; upright rounded shrub. Requires less water than other willows.
 #2 - \$32.99

Dwarf Arctic Willow zone 3 ▶ ○
Salix purpurea 'Nana'
 height: 1.2m (4 ft) spread: 1.5m (5 ft)
 Narrow, gray-green leaves turn yellow in fall; purple stems. Fast growing.
 #2 - \$32.99

Flamingo Willow zone 3 ▶ ○
Salix x integra 'Flamingo'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 White variegated green foliage with a tinge of pink, smooth red-pink stems; rounded form. Resistant to leaf scorch.
 #2 - \$32.99

Iceberg Alley Willow zone 2 ○
Salix candida 'Jefberg'
 height: 1.5m (5 ft) spread: 1.5m (5 ft)
 Small rounded shrub with powdery silver foliage, silvery catkins with red stamens. Tolerates moist soil and pruning.
 20cm (8 in.) - \$32.99

Marquette French Pussy Willow zone 3 ▶ ○
Salix caprea 'Marquette'
 height: 4.5m (15 ft) spread: 3m (10 ft)
 Tall shrub with reddish-orange bark, silvery-woolly catkins in early spring.
 #2 - \$32.99

SMALL FRUIT

ASPARAGUS

pruning – treat like a perennial. Remove dead foliage in spring before new growth appears
 note – is a vegetable
 note – only guaranteed for the first growing season

Millennium Asparagus zone 3 ○
 height: 1.5m (5 ft) spread: 60cm (2 ft)
 Top quality spears for backyard and commercial production, excellent flavour; adapts to a wide range of soils. Harvest early April to mid May after third year. Self pollinating.
 bare root – \$2.00 each

BLUEBERRY, *Vaccinium* spp.

soil – moist, acidic; mix organic soil and peat moss into the soil (half organic and half peat moss)
 pruning – best to shape and remove old growth in spring before bud break
 note – pollinize with another cultivar for increased production
 note – needs a sheltered location, mulch for winter

Chippewa Blueberry zone 3 ▶
 height: 1m (3 ft) spread: 1m (3 ft)
 Fruit 2.5cm (1 in.) dark blue, good flavour. Very productive. Ripe mid-season, a week earlier than Northblue. Self-fruitful.
 #1 - \$19.99

Northcountry Blueberry zone 3 ▶
 height: 75cm (2.5 ft) spread: 1m (3 ft)
 Fruit 2cm (3/4 in.) light blue, sweet flavour. Ripe mid to late season. Self-fruitful.
 #1 - \$19.99

Northsky Blueberry zone 3 ▶
 height: 40cm (15 in.) spread: 45cm (18 in.)
 Fruit 1cm (1/2 in.) light blue berries, very sweet flavour, ripens mid-late season. Self-fruitful. Disease resistant.
 #1 - \$19.99

Polaris Blueberry zone 3 ▶
 height: 1m (3 ft) spread: 1m (3 ft)
 Fruit 2cm (3/4 in.) light blue, very aromatic. Ripe mid-season; stores well. Self-fruitful.
 #1 - \$19.99

CHERRY, Dwarf Sour Cherry

Hardy prairie cherries are self-fruitful and semi-sweet; they are juicier and contain as much or more fruit sugar than sweet cherries which will increase if fruit is left longer on the shrub. They are excellent pie fruit. Average harvest late July/early August. Brix ratings reflect the sweetness of cherries; they exist for the 'Romance Series'.
 pruning – late fall to early spring before bud break

8 – average 14 – good 16+ – excellent

Crimson Passion Cherry zone 3 ○
Prunus x kerrasis 'SK Crimson Passion'
 height: 1.8m (6 ft) spread: 1.8m (6 ft)
 Excellent for eating fresh, sauce, juice, jelly, pies.
 Fruit 4cm (1.5 in.) skin and flesh; hard pit. Non-suckering. Ripe early August. Self-fruitful.
 Bx 22.
 20cm (8 in.) - \$39.99

Juliet Cherry zone 2 ○
Prunus x kerrasis 'Juliet'
 height: 1.8m (6 ft) spread: 1.2m (4 ft)
 Best for juice, excellent for eating fresh, preserves.
 Fruit 3cm (1.25 in.) burgundy red, sweet, flavourful.
 Few suckers. Ripe early August. Self-fruitful.
 Bx 20.
 20cm (8 in.) - \$39.99

Nanking Cherry zone 2 ● ► ○
Prunus tomentosa
 height: 3m (10 ft) spread: 4m (13 ft)
 Very good for eating fresh, jelly, pies, wine. Fruit 1.5cm (3/4 in.) bright red. Early small pink flowers. Drought tolerant. Plant in pairs for higher fruit yield. Ripe in August. Pollinizer for apricot.
 20cm (8 in.) - \$26.99

Romeo Cherry zone 2 ○
Prunus x kerrasis 'Romeo'
 height: 1.8m (6 ft) spread: 1.2m (4 ft)
 Best for juice, fresh eating and processing. Fruit 3cm (1.25 in.) dark red-black. Ripe early August. Self-fruitful - Bx 22.
 20cm (8 in.) - \$39.99

Western Sandcherry zone 2 ► ○
Prunus besseyi
 height: 1.2m (4 ft) spread: 1.5m (5 ft)
 Fruit 2.5cm (1 in.) dark purple, tart. Small white flowers; burgundy fall colour. Drought tolerant once established. Prune out 3 year old stems. Plant in pairs for higher yield. Ripe in August. Pollinizer for late flowering plums. Good for preserves.
 20cm (8 in.) - \$26.99

CHOKECHERRY

pollination - self-fruitful; higher yield if planted in pairs
 soil - dry to moist (keep moist until established)
 pruning - late fall to early spring

Western Chokecherry zone 2 ► ○
Prunus virginiana var. *melanocarpa*
 height: 5m (17 ft) spread: 3m (10 ft)
 Excellent for preserves, jam, syrup. Grape-sized fruit. Upright shrub, large green leaves. Tends to sucker. Ripe early August. **Native.**
 #2 - \$32.99

CURRENT

Black Currants produce on previous year's canes pruning - thin out older growth every 2 years
Red Currants produce on 2-3 year old canes pruning - remove older shoots every 3 years

Consort Black Currant zone 3 ► ○
Ribes nigrum 'Consort'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Good for jam, jelly, juice, wine and dried fruit. Large black fruit with tart-sweet flavour. Ripe June to August. Self-fruitful.
 #1 - \$19.99

Red Lake Currant zone 3 ► ○
Ribes sativum 'Red Lake'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Excellent for eating fresh, jam, jelly. Small shiny red fruit. Ripe June to August. Self-fruitful.
 #1 - \$19.99

ELDERBERRY

pruning - late fall to early spring

Korsor European Black Elderberry zone 4 ► ○
Sambucus nigra 'Korsor'
 height: 2.5m (8 ft) spread: 2.5m (8 ft)
 Broadly rounded shrub, white flat flower clusters, abundant purplish black fruit. Excellent for wine, jelly, dessert and preserves.
 #1 - \$19.99

GOJI BERRY, Chinese Wolfberry

pruning - late fall to early spring

Goji Berry zone 3 ► ○
Lycium barbarum
 height: 1.5m (5 ft) spread: 1.8m (6 ft)
 Fruit 2cm (3/4 in.) bright orange, very nutritious; emerald green foliage, bell-shaped blooms in early summer. Ripe July.
 #1 - \$19.99

GOOSEBERRY

pruning - thin out older canes every 3 years
 note - 2-3 year old canes are productive

Hinnonmaki Red Gooseberry zone 3 ○
Ribes uva-crispa 'Hinnonmaki'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Large juicy, semi-sweet red fruit, good for dessert, jams and pies; ripe in July. Orange-red fall colour. Self-fruitful.
 #1 - \$19.99

Hinnonmaki Yellow Gooseberry zone 3 ○
Ribes uva-crispa 'Hinnonmaki Yellow'
 height: 1.2m (4 ft) spread: 1.2m (4 ft)
 Large juicy, semi-sweet yellow fruit; sweeter than the red, good for dessert, jams and pies; ripe in July. Orange-red fall colour. Self-fruitful.
 #1 - \$19.99

GRAPE

location – plant in south facing protected location,
pruning – fruiting on old wood; prune in winter; hard
pruning required for reliable production (bleeding is
desirable)

Emerald Ice Grape zone 4 ○
Vitis 'Emerald Ice'
height: 1.8m (6 ft)
Good for eating fresh, jams, jellies and wine; high
sugar content. Large green fruit grows in a massive
cluster on the vine. Ripe late September.
#1 - \$19.99

Frontenac Grape zone 3 ○
Vitis 'Frontenac'
height: 5m (17 ft)
Good for eating fresh, jelly, juice, and is excellent
for wine. Fruit 1cm (1/2 in.) very good quality.
Heavy producer. Let fruit mature on vine to reduce
acidity. Ripe mid-late season. Self-fruitful.
#1 - \$19.99

Frontenac Gris Grape zone 4 ○
Vitis 'Frontenac Gris'
height: 6m (20 ft)
Best for eating fresh, juice, wine, and desserts;
sweet tasting. Fruit 1cm (1/2 in.) peach-blush skin
colour. Abundant crop. Ripe mid fall. Self-fruitful.
#1 - \$19.99

Minnesota 78 Grape zone 3 ○
Vitis 'Minnesota 78'
height: 4m (13 ft)
Good for eating fresh, jelly, juice, and wine; very
productive and vigorous. Produces better when
pollinated with another grape cultivar.
#1 - \$19.99

Valiant Grape zone 2 ○
Vitis riparia 'Valiant'
height: 2.5m (8 ft)
Best for juice, eating fresh, jelly and wine; sweet-
tangy. Fruit 1cm (1/2 in.) dark purple-black skin;
similar to Concord grape. Prune only to shape. Very
productive and vigorous. Ripe early September.
Self-fruitful.
#1 - \$19.99

HAZELNUT

pruning - can be pruned anytime of year. Winter
pruning encourages more growth, spring and
summer pruning encourages less growth

Beaked Hazelnut zone 2 ●●○
Corylus cornuta
height: 4m (13 ft) spread: 1.5m (5 ft)
Small edible nuts; catkins in spring before leaves;
prefers slightly moist, well-drained soil. Needs to
be planted in pairs for fruit production **Native**.
#2 - \$34.99

HONEYBERRY/HASKAP

pollination – two different cultivars required
soil – drought tolerant; prefers wet spring soil
pruning - late fall to early spring
fruit – deep blue, elongated

Honeyberry/Haskap

Lonicera caerulea
Good for eating fresh, jam, jelly, baking and
preserves.

Aurora Honeyberry zone 2 ●○
height: 1.5m (5 ft) spread: 1.5m (5 ft)
Large fruit, pear-shaped, sweet very productive.
Ripe late June to August. Excellent pollinizer.
#1 - \$19.99

Boreal Beast Honeyberry zone 2 ●○
height: 1.5m (5 ft) spread: 1.5m (5 ft)
Large sweet berries, later blooming. Ripe mid to
late July. Pollinate with Aurora for best production.
#1 - \$19.99

Boreal Beauty Honeyberry zone 2 ●○
height: 1.5m (5 ft) spread: 1.5m (5 ft)
Large sweet berries, later blooming. Ripe late
July. Pollinate with Boreal Beast or Aurora for best
production.
#1 - \$19.99

Boreal Blizzard Honeyberry zone 2 ●○
height: 1.8m (6 ft) spread: 1.8m (6 ft)
Large fruit, larger and sweeter than other
cultivators. Ripe early to mid July.
#1 - \$19.99

Borealis Honeyberry zone 2 ●○
height: 1.2m (4 ft) spread: 1.5m (5 ft)
Large fruit, sweet-tangy, soft plump and boxy.
Ripe July to early August.
#1 - \$19.99

NEW Combination Honeyberry zone 2 ●○
height: 1.2m (4 ft) spread: 1.2m (4 ft)
A combo of 2-3 honeyberries in one pot; varieties
as labeled, a mix of sweet to tangy fruit. Ripe mid
to late summer. Self-fruitful; no pollinator needed.
#2 - \$44.99

LINGONBERRY

pruning (if required) - in early spring is the best to
remove older canes every few years

Koralle Lingonberry zone 2 ○
Vaccinium vitis-idaea 'Koralle'
height: 30cm (12 in.) spread: 1m (3 ft)
Low dense creeping shrub, semi evergreen; dark
green foliage, white to pink flowers in spring, large
red berries, good for eating fresh. Slow growing.
20cm (8 in.) - \$26.99

RASPBERRY *Rubus spp.*

pollination – self-fruitful

summer bearing (floricane) – production on previous year's canes; remove older canes

fall bearing (primocane) – production on new growth; cut to ground after harvest

excellent for eating fresh, jam, jelly and preserves

NEW Autumn Bliss Red Raspberry zone 3 ○
annual bearer – **fall bearing**
height: 1.5m (5 ft) spread: 45cm (18 in.)
Large sweet fruit, aromatic, very delicious. Ripe late August.
#1 - \$19.99

Boyne Red Raspberry zone 2 ○
biennial bearer – **summer bearing**
height: 2m (7 ft) spread: 1m (3 ft)
Dark red fruit, tart, aromatic, very juicy. Heavy producer. Ripe July/August.
#1 - \$19.99 bare root \$3.00

Munger Black Raspberry zone 4 ► ○
biennial bearer – **summer bearing**
height: 1.5m (5 ft) spread: 1.5m (5 ft)
Large dark purple fruit, delightful taste, non-seedy. Good for eating fresh, jams and jellies. Ripens mid-season.
#1 - \$19.99

Red River Red Raspberry zone 2 ○
annual bearer – **fall bearing**
height: 1m (3 ft) spread: 1m (3 ft)
Bright red fruit, sweet-tangy taste. Ripe mid Aug.
bare root \$3.00

Souris Red Raspberry zone 2 ○
biennial bearer – **summer bearing**
height: 2m (7 ft) spread: 1m (3 ft)
Dark red fruit, tart, aromatic, very juicy. Heavier producer and tastier than Boyne. Ripe July/Aug.
bare root \$3.00

RHUBARB

note - plant crown tip 3-5cm (1.25-2 in.) below soil surface leaves are toxic

pruning - clean up stalks and leaves in late fall

note - only guaranteed for the first growing season

Canada Red Rhubarb zone 2 ► ○
Rheum rhabarbarum 'Canada Red'
height: 60cm (2 ft) spread: 1m (3 ft)
Delicious for pies, sauces and wine. Very large leaves, long thick, sweet stalks; one of the sweetest red rhubarbs.
#1 - \$16.95

SASKATOON, Juneberry

pollination – self-fruitful;

plant another variety for higher yield

pruning - early spring before bud break

note – tends to sucker

fruit – deep blue-black, the "Blueberry of the Prairies"

Amelanchier alnifolia zone 2 ► ○
Excellent for eating fresh, freezing, pies, preserves. Ornamental upright growing shrub or small tree with vivid orange red fall foliage. Ideal for hedges.
Native selection. Available cultivars are:

Honeywood height: 5m (16 ft) spread: 4m (13 ft)
Fruit 16mm (3/4 in.) flavourful; flowers about one week later than other cultivars.
#1 - \$19.99

Martin height: 3m (10 ft) spread: 4m (13 ft)
Fruit 16mm (3/4 in.) deep blue fruit, flavourful.
#1 - \$19.99

Northline height: 4m (13ft) spread: 6m (20 ft)
Fruit 16mm (3/4 in.) blue-black, flavourful.
#1 - \$19.99

Smoky height: 4.5m (15 ft) spread: 4.5m (15 ft)
Fruit 14mm (1/2 in.) large round fruit, quite sweet, fleshy. Most productive saskatoon.
#1 - \$19.99

Thiessen height: 3.5m (12 ft) spread: 2.5m (8 ft)
Fruit 16mm (3/4 in.) mild flavour, juicy, early flowering. Uneven ripening.
#1 - \$19.99

SEA BUCKTHORN, Seaberry

pollination – requires male plant; wind pollination
soil – dry, alkaline
pruning - late winter to early spring before bud break
note – berries are very high in Vitamin C, A, and E
note – nitrogen fixing roots tend to sucker, thorny

Leikora Seaberry female plant zone 3 ► ○
Hippophae rhamnoides 'Leikora'
height: 3m (10 ft) spread: 2m (7 ft)
Excellent for juice and jelly. Large, juicy, intensely flavoured, bright orange berries. Ripe early to mid-September; fruit remains good even after heavy frost.
#1 - \$19.99

Orange Energy Seaberry female plant
Hippophae rhamnoides 'Habego' zone 3 ► ○
height: 2.5m (8 ft) spread: 1.5m (5 ft)
Narrow silver leaves, orange berries in August; thorny branches. Excellent for jelly and juice; high in vitamins.
#1 - \$19.99

Sea Buckthorn male plant zone 3 ► ○
Hippophae rhamnoides
height: 6m (20 ft) spread: 3m (10 ft)
Narrow silver leaves. Pollinizer for female shrub.
#1 - \$19.99

STRAWBERRY *Fragaria spp.*

pruning - clean up leaves and stems in fall and mulch for winter

Albion – Day Neutral

Continuous crop from June until frost. Fruit medium sized, firm, bright red skin and flesh. bare root – 75¢ each

Fort Laramie – Everbearing

Two heavy crops per year - end of June and again in fall. Red fruit, sweet, very good quality. Prolific runners. bare root – 75¢ each

Seascape – Day neutral

Continuous crop from end of July until frost. Fruit large, firm, bright red skin and flesh. Produce 12-14 weeks after planting. bare root – 75¢ each

FRUIT TREES

APPLES

pollination – 2 different varieties within 1 city block (Apple, Applecrab, Crabapple, Ornamental Crabapple)
pruning - late fall to early spring before bud break

Combination Apple zone 3 ○

height: 5m (17 ft) spread: 4m (13 ft)
Minimum of three apple varieties have been grafted onto one tree. Varieties as labeled. All are excellent for eating fresh and pollinize each other. #5 - \$149.99 #10 - \$219.99

Early season varieties mid August / early September

Gemini Apple zone 2 ○

Malus x 'Jefcoutts'
height: 6m (20 ft) spread: 3m (10 ft)
Best for eating fresh, good for cooking and juicing, storage 20 weeks. Fruit 8cm (3.25 in.) crisp, juicy, medium sweet. Skin red with dark red stripes. #5 - \$99.99

Norkent Apple zone 3 ○

Malus x 'Norkent'
height: 6m (20 ft) spread: 6m (20 ft)
Good for eating fresh, cooking and juicing, storage 10 weeks. Fruit 6.5cm (2.5 in.) oblong, sweet, juicy, skin red with dark red stripes. Flesh: greenish white. #5 - \$99.99

Norland Apple zone 2 ○

Malus x 'Norland'
height: 5m (17 ft) spread: 4m (13 ft)
Good for eating fresh and cooking, storage 16 weeks if picked green. Fruit 7cm (2.75 in.) sweet. Skin red with green stripes. Flesh: creamy white. #5 - \$99.99

Odyssey Apple zone 3 ○

Malus x 'Jefsey'
height: 5m (17 ft) spread: 4m (13 ft)
Excellent for eating fresh, good for pies and sauces, storage 5-6 weeks. Fruit 7cm (2.75 in.) crisp, sweet. Skin: red blush on yellow. Similar to Gala. #5 - \$99.99

Mid season varieties Harvest mid September

Dexter Jackson Apple zone 3 ○

Malus x 'Dexter Jackson'
height: 5m (17 ft) spread: 4m (13 ft)
Good for fresh eating; stores for 12 weeks. Fruit 7cm (2.5 in.) crisp, sweet. Skin red over yellow. #5 - \$99.99

Gloria Apple zone 3 ○

Malus x 'Gloria'
height: 4m (13 ft) spread: 4m (13 ft)
Good for eating fresh and baking. Fruit is 5cm (2 in.) sweet and slightly spicy strawberry flavour. Skin reddish purple. #5 - \$99.99

Hardi-Mac Apple zone 3 ○

Malus x 'Hardi-Mac'
height: 5m (17 ft) spread: 4m (13 ft)
Good for eating fresh and baking, storage 8 weeks. Fruit 7cm (2.75 in.) bright red and crisp with aromatic flavour. Shelter from north and west wind. #5 - \$99.99

Prairie Sensation Apple zone 2 ○

Malus x 'Prairie Sensation'
height: 5.5m (18 ft) spread: 4.5m (15 ft)
Great for storing, baking and eating, stores 16 weeks. Fruit 8cm (3.25 in.) green with a red overlay, juicy and crisp. Ripe mid September. #5 - \$99.99

NEW TreasuRed Apple zone 3 ○

Malus x 'TreasuRed'
height: 4.5m (15 ft) spread: 1.2m (4 ft)
Great for storing, baking and eating fresh, stores 12 weeks. Fruit 7.5cm (3 in.) cherry red, similar to McIntosh flavour and texture. Ripe mid-September #5 - \$99.99

Late season varieties Harvest late September / early October

Goodland Apple zone 3 ○
Malus x 'Goodland'
height: 5m (17 ft) spread: 4m (13 ft)
Excellent for eating fresh and cooking, storage 20 weeks. Fruit 7.5cm (3 in.) juicy, sweet, aromatic. Skin green with red blush. Flesh: crisp and white. Very productive. Excellent all purpose apple.
#5 - \$99.99

Honeycrisp Apple zone 3 ○
Malus x 'Honeycrisp'
height: 4m (13 ft) spread: 3m (10 ft)
Excellent for eating fresh, dessert, sauces and baking, storage 24 weeks. Fruit 8cm (3.25 in.) sweet, juicy, crisp, sub-acid to strongly aromatic. Skin mottled red over yellow.
#5 - \$99.99 #10 - \$179.99

APPLECRAB

pruning - late fall to early spring before bud break

Kerr Applecrab zone 2 ○
Malus x 'Kerr'
height: 5m (17 ft) spread: 4m (13 ft)
Excellent for eating fresh & canning – storage 27 weeks (into January). Fruit 4cm (1.5 in.) sweet. Skin deep red. Flesh: yellow flecked with red. Ripe late September; best if picked after late frost.
#5 - \$99.99

Rescue Applecrab zone 2 ○
Malus x 'Rescue'
height: 5m (17 ft) spread: 4m (13 ft)
Excellent for eating fresh and canning, stores 2 weeks. Fruit 4cm (1.5 in.) sweet. Skin dull red blushed yellow. Ripe early August.
#5 - \$99.99

CRABAPPLE

pruning - late fall to early spring before bud break

Dolgo Crabapple zone 2 ○
Malus baccata 'Dolgo'
height: 9m (30 ft) spread: 6m (20 ft)
Excellent for eating fresh, flavourful jelly, storage 2 weeks. Fruit 4cm (1.5 in.) egg-shaped, semi-sweet, juicy. Skin dark red. Flesh: yellow. Ripe mid August. Very large white flowers.
#5 - \$99.99

CHERRY, Dwarf Sour Cherry

Hardy prairie cherries are self-fruitful and semi-sweet; they are juicier and contain as much or more fruit sugar (sucrose) than sweet cherries which will increase if fruit is left longer on the shrub. They are excellent pie fruit. Average harvest late July/early August. Brix ratings reflect the sweetness of cherries; they exist for the 'Romance Series'.
pruning - late fall to early spring before bud break

8 – average 14 – good 16+ – excellent

Crimson Passion Cherry tree form zone 3 ○
Prunus x kerrasis 'SK Crimson Passion'
height: 1.8m (6 ft) spread: 1.8m (6 ft)
Excellent for eating fresh, sauce, juice, jelly, pie. Fruit 4cm (1.5 in.) dark red flesh; hard pit. Non-suckering. Ripe early August. Self-fruitful – Bx 22.
#5 - \$99.99 #7 - \$129.99 #10 - \$179.99

Evans Cherry tree form zone 3 ○
Prunus cerasus 'Evans'
height: 4m (13 ft) spread: 3m (10 ft)
Excellent for eating fresh, preserves and wine. Fruit 2.5cm (1 in.) semi-sweet, juicy. Skin: dark red. Flesh orange-red. Ripe late August. Self-fruitful.
#5 - \$99.99

Juliet Cherry tree form zone 2 ○
Prunus x kerrasis 'Juliet'
height: 1.8m (6 ft) spread: 1.2m (4 ft)
Best for juice, excellent for eating fresh, preserves. Fruit 3cm (1.25 in.) burgundy red, sweet, flavourful. Ripe early August. Self-fruitful – Bx 20.
#7 - \$129.99 #10 - \$179.99

Romeo Cherry tree form zone 2 ○
Prunus x kerrasis 'Romeo'
height: 1.8m (6 ft) spread: 1.2m (4 ft)
Best for juice, fresh eating and processing. Fruit 3cm (1.25 in.) dark red-black. Ripe early August. Self-fruitful – Bx 22.
#5 - \$99.99 #10 - \$179.99

Valentine Cherry tree form zone 2 ○
Prunus x kerrasis 'Valentine'
height: 1.8m (6 ft) spread: 1.2m (4 ft)
Fruit 3cm (1.25 in.) bright red tart; very productive pie cherry; ripe early August. Slight suckering. Self-fruitful – Bx 15.
#7 - \$129.99

PEAR

pollination – 2 different varieties within 1 city block
pruning - late fall to early spring before bud break

Early Gold Pear zone 3 ○
Pyrus x ussuriensis 'JefGold'
height: 6m (20 ft) spread: 4.5m (15 ft)
Good for eating fresh, preserves. Fruit 5cm (2 in.) sweet, very juicy. Skin greenish gold. Flesh yellow. Ripe early August. Vigorous. Consistent producer.
#5 - \$99.99

Golden Spice Pear zone 3 ○
Pyrus x ussuriensis 'Golden Spice'
 height: 6m (20 ft) spread: 5m (17 ft)
 Good for eating fresh, jam and preserves; does not keep well. Fruit 5cm (2 in.) nice flavour. Skin yellow blushed red. Ripe late September.
 #5 - \$99.99

Ure Pear zone 3 ○
Pyrus x ussuriensis 'Ure'
 height: 8m (26 ft) spread: 5m (17 ft)
 Good for eating fresh, canning and jam, storage 6 weeks if refrigerated. Fruit 5cm (2 in.) sweet, juicy. Skin greenish yellow. Drought tolerant once established. Resistant to fireblight. Ripe mid August.
 #5 - \$99.99

PLUM

pruning - late fall to early spring before bud break
 pollination - Western Sandcherry

Brookred Plum zone 3 ○
Prunus x 'Brookred'
 height: 5m (17 ft) spread: 4m (13 ft)
 Excellent for eating fresh, cooking and jam. Fruit 4cm (1.5 in.) good flavour. Skin dark red. Heavy producer. Ripe late August/early Sept.
 #5 - \$99.99

Mount Royal Plum zone 3 ○
Prunus domestica 'Mount Royal'
 height: 4m (13 ft) spread: 2.5m (8 ft)
 Excellent for eating fresh, preserves, dessert and jam. Fruit juicy. Skin bluish-black. Flesh firm and yellow. Freestone. Hardy European plum. Ripe late August. Self-fruitful.
 #5 - \$99.99 #10 - \$179.99

Pembina Plum zone 2 ○
Prunus x 'Pembina'
 height: 5m (17 ft) spread: 4m (13 ft)
 Excellent for eating fresh, good for jam and fair for canning. Fruit 5cm (2 in.) sweet, juicy, egg shaped. Skin orange-red with bluish bloom. Flesh yellow. Freestone. Ripe mid-late August.
 #5 - \$99.99

TREES

ALDER, Manchurian

pruning - late fall to early spring before bud break

Prairie Horizon Alder zone 3 ●●○
Alnus hirsuta 'Harbin'
 height: 9m (30 ft) spread: 6m (20 ft)
 Broadly pyramidal tree, dark green foliage turns yellow in fall; purple catkins, tiny cone-like seed capsules. Tolerates dry and wet soil. Fast growth.
 #7 - \$129.99 #10 - \$179.99

ASH, Green Ash

soil - dry to wet (keep moist until established)
 pruning - late fall to early spring before bud break

Patmore Green Ash zone 2 ○
Fraxinus pennsylvanica 'Patmore'
 height: 15m (50 ft) spread: 10m (33 ft)
 Seedless. Rounded tree; glossy green leaves, golden in fall. Tolerates alkaline soil, drought and Chinooks. Excellent substitute for the American Elm. Fast growth.
 #10 - \$179.99

Prairie Spire Green Ash zone 2 ○
Fraxinus pennsylvanica 'Rubgy'
 height: 15m (50 ft) spread: 7m (23 ft)
 Seedless. Oval shaped shade tree; glossy green leaves, bright golden in fall. Tolerates alkaline soil, drought and Chinook tolerant.
 #10 - \$179.99

ASPEN, Trembling / Quaking Aspen

soil - dry to wet (keep moist until established)
 pruning - late fall to early spring before bud break

Guardian Columnar Aspen zone 3 ○
Populus x 'Jefguard'
 height: 12m (40 ft) spread: 3m (10 ft)
 Seedless. Tight columnar form, large heart shaped leaves turn yellow in fall; high resistance to Bronze Leaf Disease; Fast growing.
 #5 - \$99.99

Quaking Aspen, Trembling Aspen zone 2 ○
Populus tremuloides
 height: 20m (65 ft) spread: 10m (33 ft)
 Pyramidal to round crown. Deep green leaves, golden yellow fall colour. Tends to sucker. Fast growing. **Native.**
 #5 - \$99.99

Swedish Columnar Aspen zone 2 ○
Populus tremula 'Erecta'
 height: 12m (40 ft) spread: 2m (7 ft)
 Seedless. Very narrow tree with near vertical, twisted branches; bronze new leaves mature to green, turn golden yellow in fall. Very fast growing.
 #2 - \$32.99 #5 - \$99.99
 #10 - \$179.99 #15 - \$229.99

BIRCH

soil - moist to wet
 roots - shallow, wide spreading
 pruning - in July when fully leafed out

Chickadee Paper Birch zone 2 ○
Betula papyrifera 'Chickadee'
 height: 12m (40 ft) spread: 8m (26 ft)
 Narrow tree when young, maturing to dense pyramidal form; very white peeling bark, green leaves to clear yellow in fall. **Native Selection.**
 #5 - \$99.99

Purple Spire Flowering Crab. zone 3 ○
Malus x 'Jefspire'
 height: 5m (17 ft) spread: 2m (7ft)
 Few rose-pink flowers, small fruit, showy purple-green foliage, most intense in fall.
 #5 - \$109.99 #10 - \$199.99

Radiant Flowering Crab. zone 3 ○
Malus x 'Radiant'
 height: 6m (20 ft) spread: 4.5m (15 ft)
 Deep pink flowers, new purplish leaves mature to green-bronze, small red fruit, dark red bark.
 #5 - \$99.99

Royal Beauty Weeping Crab. zone 3 ○
Malus x 'Royal Beauty'
 height: 2m (7 ft) spread: 3m (10 ft)
 Weeping branches. Pink flowers, small red fruit; purple-red leaves turn coppery in fall. Prefers a sheltered location.
 #7 - \$129.99

Spring Snow Flowering Crab. zone 3 ○
Malus x 'Spring Snow'
 height: 8m (26 ft) spread: 5m (17 ft)
 Pink buds open to pure white flowers, glossy green leaves, bright golden yellow fall colour. Typically fruitless.
 #5 - \$99.99 #10 - \$179.99 #15 - \$229.99

Thunderchild Flowering Crab. zone 2 ○
Malus x 'Thunderchild'
 height: 5m (17 ft) spread: 4m (13 ft)
 Single rose-pink flowers, deep greenish-purple leaves turn purple-red in fall; small dark red fruit; dark red bark. Compact tree. Fireblight resistant.
 #5 - \$99.99 #10 - \$179.99

ELM

soil – moist to wet
 pruning – between October and March

American Elm zone 2 ○
Ulmus americana
 height: 20m (65 ft) spread: 15m (50 ft)
 Stately, vase-shaped tree with deep green toothed foliage, brilliant yellow in fall. Branch tips droop.
 #10 - \$179.99

Brandon American Elm zone 2 ○
Ulmus americana 'Brandon'
 height: 15m (50 ft) spread: 10m (33 ft)
 Stately, vase-shaped tree with deep green toothed foliage, golden in fall. Branch tips droop. Improved branching habit over other species. Fast growing.
 #10 - \$179.99 #15 - \$229.99

HACKBERRY

pruning - late fall to early spring before bud break

Common Hackberry zone 2 ► ○
Celtis occidentalis
 height: 15m (50 ft) spread: 10.5m (35 ft)
 Tall oval tree, soft yellow fall colour, corky bark. Prefers moist soil, intolerant of wet soil. Excellent substitute for American Elm.
 #7 - \$129.99

HAWTHORN

soil – dry (keep moist until established)
 pruning - late fall to early spring before bud break
 note – drought & Chinook tolerant once established
 feature – flaking bark when mature

Snowbird Hawthorn zone 3 ► ○
Crataegus x mordenensis 'Snowbird'
 height: 5m (17 ft) spread: 5m (17 ft)
 Double white flowers, few red berries; deeply lobed green foliage turns yellow in fall.
 #10 - \$179.99

Toba Hawthorn zone 3 ► ○
Crataegus x mordenensis 'Toba'
 height: 5m (17 ft) spread: 4m (13 ft)
 Double white flowers mature to pink; red berries; deeply lobed green foliage turns yellow in fall. Compact rounded tree.
 #7 - \$129.99 #10 - \$179.99 #15 - \$229.99

HONEYLOCUST

pruning - late fall to early spring before bud break

Northern Acclaim Honeylocust zone 3 ○
Gleditsia triacanthos 'Harve'
 height: 12m (40 ft) spread: 9m (30 ft)
 Seedless, thornless, horizontal spreading tree, bright green leaves turn yellow in fall. Tolerates urban pollution.
 #7 - \$129.99 #10 - \$179.99

LILAC

pruning - after flowering in early summer

Ivory Pillar Pekin Tree Lilac zone 3 ► ○
Syringa pekinensis 'Wilamette'
 height: 6m (20 ft) spread: 7.5m (12 ft)
 Creamy white fragrant flowers in summer, dark green foliage, upright branching makes it excellent for smaller spaces. Tolerates urban pollution.
 #5 - \$99.99 #10 - \$179.99

Ivory Silk Japanese Tree Lilac zone 3 ○
Syringa reticulata 'Ivory Silk'
 height: 7m (23 ft) spread: 5m (17 ft)
 Oval tree, smooth dark-brown bark. Creamy white flowers. Shallow wide roots. Drought tolerant once established.
 #10 - \$179.99 #15 - \$229.99

Snowdance Japanese Tree Lilac zone 3 ○
Syringa reticulata 'Bailnce'
 height: 6m (20 ft) spread: 4.5m (15 ft)
 Oval tree, no seeds; lustrous green foliage, no fall colour. Large white flowers. Smooth dark red bark. Prefers moist, well-drained soil.
 #7 - \$129.99

LINDEN

pruning - late fall to early spring before bud break

Dropmore Linden zone 2 ○
Tilia x flavescens 'Dropmore'
 height: 10m (33 ft) spread: 7m (23 ft)
 Dense pyramidal tree, large, medium green heart shaped leaves turn golden yellow in fall. Fragrant yellow flowers in July. Deep roots.
 #5 - \$99.99 #10 - \$179.99 #15 - \$229.99

MAACKIA

pruning - late fall to early spring before bud break

NEW Summerfrost Amur Maackia zone 3 ○
Maackia amurensis 'Summerfrost'
 height: 6m (20 ft) spread: 4.5m (15 ft)
 A smaller rounded form with lower branching habit than other Amur Maackia's. Silver foliage matures to dark green, white flowers spikes in late spring; copper-bronze, exfoliating bark with age.
 #10 - \$179.99

MAPLE

soil - moist, slightly acidic
 pruning - in July when fully leafed out

Amur Maple zone 2 ◐ ○
Acer ginnala
 height: 6m (20 ft) spread: 4m (13 ft)
 Bright golden to crimson fall foliage; slender irregular growing branches, deeply lobed leaves. Drought tolerant once established. Fast growing.
 #5 - \$99.99 #7 - \$129.99 #10 - \$179.99

Amur Maple multi-stem zone 2 ◐ ○
Acer ginnala
 height: 6m (20 ft) spread: 6m (20 ft)
 Bright golden to crimson fall foliage; slender irregular growing branches, deeply lobed leaves. Drought tolerant once established. This multi-stem tree comes with 3 to 4 stems and will have a wider crown.
 #5 - \$59.99

Deborah Norway Maple zone 4 ○
Acer platanoides 'Deborah'
 height: 15m (50 ft) spread: 10.5m (35 ft)
 Broadly conical crown, brilliant red young leaves with wavy margins, turn dark green in summer, then orange in fall.
 #10 - \$179.99

Fall Fiesta Sugar Maple zone 3 ○
Acer saccharum 'Bailsta'
 height: 15m (50 ft) spread: 12m (40 ft)
 Orange, red and yellow fall colour. Rounded tree, symmetrical branching; dark green foliage.
 #7 - \$129.99 #15 - \$229.99

Hot Wings Tatarian Maple zone 3 ○
Acer tataricum 'GarAnn'
 height: 7.5m (25 ft) spread: 6m (20 ft)
 Upright graceful spreading tree, dark green leaves turn orange-red in fall; scarlet flowers, bright red samaras. Tolerant of drought and alkaline soils.
 #5 - \$99.99 #7 - \$129.99
 #10 - \$179.99 #15 - \$229.99

Prairie Splendor Norway Maple zone 3 ○
Acer platanoides 'Prairie Splendor'
 height: 12m (40 ft) spread: 9m (30 ft)
 Broad oval tree; large deep red leaves turn reddish bronze in fall. Hardier selection of a mature local Crimson King maple. Very ornamental. Slow growing.
 #10 - \$179.99 #15 - \$229.99

Red Rocket Red Maple zone 3 ○
Acer rubrum 'Red Rocket'
 height: 12m (40 ft) spread: 3m (10 ft)
 Narrow upright growing tree, red flowers in spring, blazing red fall colour. Needs acidic soil; tolerates wet soil.
 #5 - \$99.99 #7 - \$129.99 #10 - \$179.99

Silver Queen Maple zone 3 ◐ ○
Acer saccharinum 'Silver Queen'
 height: 15m (50 ft) spread: 9m (30 ft)
 Dense rounded tree; green leaves with silvery white undersides, golden fall colour. Fast growing.
 #10 - \$179.99

MAYDAY

soil - dry (keep moist until established)
 pruning - late fall to early spring before bud break
 flowers - white flower clusters, red berries attracts the birds
 feature - large dark green leaflets; bright orange-red fall foliage; smooth, shiny bark

Mayday, Common Mayday zone 3 ○
Prunus padus var. *commutata*
 height: 10m (33 ft) spread: 8m (26 ft)
 Rounded, low headed tree; white flowers, very small black inedible berries; dark green leaves turn yellow to red in fall.
 #5 - \$99.99 #10 - \$179.99 #15 - \$229.99

Sweetheart Redleaf Mayday zone 2 ○
Prunus padus 'Sel'
 height: 6m (20 ft) spread: 4m (13 ft)
 Upright, low headed tree; pink blooms in spring, red-purple leaves all season.
 #5 - \$99.99 #10 - \$179.99

MOUNTAIN ASH

soil – dry (keep moist until established)
 pruning – late fall to early spring before bud break
 flowers – white flower clusters, red berries for birds
 feature – large dark green leaflets; bright orange-red
 fall foliage; smooth, shiny bark

Pyramidal Mountain Ash zone 3 ○
Sorbus aucuparia 'Fastigiata'
 height: 6m (20 ft) spread: 2m (7 ft)
 Tight pyramidal tree, small orange-red berries
 persist into winter. Slow growing. Great accent
 tree.
 #7 - \$129.99

Russian Mountain Ash zone 2 ○
Sorbus aucuparia 'Rossica'
 height: 8m (26 ft) spread: 5m (17 ft)
 Upright oval dense pyramidal crown. Showy red
 berries.
 #5 - \$99.99

Showy Mountain Ash zone 2 ○
Sorbus decora
 height: 7.5m (25 ft) spread: 5m (17 ft)
 Rounded crown, sticky buds, bright red berries.
 Resistant to fireblight. Excellent ornamental tree.
 #5 - \$99.99 #10 - \$179.99

OAK

pruning – late fall to early spring before bud break

Bur Oak zone 2 ○
Quercus macrocarpa
 height: 15m (50 ft) spread: 12m (40 ft)
 Open growing crown; ridged bark; lobed dark
 green leaves, yellowish-brown in fall. Drought
 tolerant once established. Small acorns, taproot.
 Fast growing when young.
 #7 - \$129.99 #10 - \$179.99

Majestic Skies Northern Pin Oak zone 3 ½ ○
Quercus ellipsoidalis 'Majestic Skies'
 height: 18m (60 ft) spread: 14m (45 ft)
 Pyramidal-oval growth habit; red leaves in spring
 and fall; furrowed gray bark. Prefers moist acidic
 soil. Heritage tree.
 #10 - \$179.99

OHIO BUCKEYE

soil – prefers moist soil, does well in dry soil
 pruning – late fall to early spring before bud break
 flowers – cone-shaped candle-like flower clusters
 leaves – large green, palmate, exotic look

Ohio Buckeye zone 2 ½ ○
Aesculus glabra
 height: 8m (26 ft) spread: 6m (20 ft)
 Rounded tree; white flower clusters, golden to
 orange fall foliage. Deep roots. Slow growing.
 Inedible nut.
 #15 - \$229.99

Prairie Torch Hybrid Buckeye zone 3 ½ ○
Aesculus x 'Bergeson'
 height: 9m (30 ft) spread: 9m (30 ft)
 Upright rounded tree, unique green foliage,
 orange-yellow red fall colour, showy greenish
 yellow flowers in spring; inedible nut.
 #5 - \$99.99

PLUM Ornamental

pruning – late fall to early spring before bud break

Muckle Plum zone 3 ○
Prunus x nigrella 'Muckle'
 height: 5m (17 ft) spread: 3m (10 ft)
 Bright red buds, early bright pink flowers; no fruit;
 red fall foliage; tolerates heavy soil.
 #5 - \$99.99 #7 - \$129.99 #10 - \$179.99

Princess Kay Plum zone 3 ○
Prunus nigra 'Princess Kay'
 height: 5m (17 ft) spread: 3m (10 ft)
 Double white flowers, some orange fruit; dark
 green leaves turn red in fall; dark reddish-brown
 bark.
 #7 - \$129.99

POPLAR

soil – moist
 pruning – late fall to early spring before bud break
 notes – aggressive root

Assiniboine Poplar zone 2 ○
Populus x 'Assiniboine'
 height: 18m (60 ft) spread: 12m (40 ft)
 Seedless. Pyramidal tree, strong branching, yellow
 fall foliage. Disease resistant. Very fast growing.
 #2 - \$32.99

Byland Green Poplar zone 3 ○
Populus x 'Byland Green'
 height: 16m (53 ft) spread: 10m (33 ft)
 Seedless. Upright tree, dark green foliage turns
 shades of yellow in fall. Excellent for shelterbelt
 and parks. Does not sucker. Fast growing.
 #2 - \$32.99

Prairie Sky Poplar zone 2 ○
Populus x canadensis 'Prairie Sky'
 height: 18m (60 ft) spread: 6m (20 ft)
 Seedless. Narrow tree, dark green leaves, silver
 underside, golden in fall. Very fast growing.
 #2 - \$32.99

Sargent Poplar zone 2 ○
Populus sargentii
 height: 27m (90 ft) spread: 21m (70 ft)
 Seedless. Broad tree, male form of Plains
 Cottonwood. Green leaves late into fall, then
 turning yellow. **Native selection.**
 #2 - \$32.99

Sundancer Poplar zone 2 ○
Populus x 'ACWS151'
height: 12m (40 ft) spread: 3m (10 ft)
Seedless. Narrow tall tree with good disease and insect resistance. Golden yellow fall foliage. Does not sucker. Drought tolerant.
#2 - \$32.99 #5 - \$99.99

SERVICEBERRY

pruning - late fall to early spring before bud break

Robin Hill Serviceberry zone 4 ◐ ○
Amelanchier x grandiflora 'Robin Hill'
height: 6m (20 ft) spread: 4.5m (15 ft)
Stunning clusters of pink flowers in spring; dark green foliage turning red in the fall; produces blue berries late spring to summer. Attracts birds.
#10 - \$179.99

WALNUT

soil - moist
roots - deep, wide spreading
fruit - sweet, large edible nut, pick green after frost
pruning - in July when fully leafed out

Black Walnut zone 3 ○
Juglans nigra
height: 15m (50 ft) spread: 9m (30 ft)
Broad rounded tree; dark green long exotic leaflets, turns yellow in fall. Self-fruitful.
#5 - \$99.99

Butternut White Walnut zone 3 ○
Juglans cinerea
height: 15m (50 ft) spread: 13m (42 ft)
Broad rounded tree, golden fall colour. Tolerates dry rocky soil. Slow growing. Sweet, large edible nut, pick green. Self-fruitful.
#5 - \$99.99 #10 - \$179.99

WILLOW

soil - moist to wet; best where soil moisture available
pruning - late fall to early spring before bud break
roots - shallow and aggressive
feature - Chinook tolerant; very fast growing

Northern Fountain Weeping Willow zone 3 ◐ ○
Salix x 'Northern Fountain'
height: 12m (40 ft) spread: 9m (30 ft)
Consistent weeping feature, golden-yellow young branches; glossy green foliage, turns yellow in fall.
#5 - \$99.99

Prairie Reflection Laurel Willow zone 3 ○
Salix pentandra 'Silver Lake'
height: 10.5m (35 ft) spread: 7.5m (25 ft)
Dense globe-shaped form; dark glossy foliage turns yellow in fall; tolerant of alkaline soil. Hardy, fast growing shade tree.
#5 - \$99.99

Silverleaf Willow zone 2 ○
Salix alba 'Sericea'
height: 15m (50 ft) spread: 10m (33 ft)
Rounded tree, narrow silvery-grey leaves turn yellow in fall; orange-brown bark. Good substitute for the Russian Olive. Can tolerate drier soils than other willows.
#5 - \$99.99

NOTES

ANNUALS

Flowers & Grasses

Bedding-out plants (4 per basket)	\$3.29
Bedding-out plants – 3.5" (9 cm) sq.	\$4.49
Bedding-out plants – 4" (10 cm) rd.	\$4.99
Bedding-out plants – 5" (12 cm) rd.	\$6.49
Bedding-out plants – 6" (15 cm) rd.	\$9.99

Tomatoes – 5.5" (15 cm) pot	\$9.99
Tomatoes – #1 pot	\$14.99
Tomatoes – #2 pot	\$24.99
Vegetables (4 per basket)	\$3.29
Vegetables – 3.5" (9 cm) green pot	\$3.99

We carry a large selection
of Hanging Baskets and
Patio Planters in many sizes

From shade to sun,
we have a great choice for
everyone.

NOTES

PERENNIALS

All perennials are guaranteed for the first growing season only. No over-winter guarantee applies.

4 inch / 9 cm pot	\$5.95
5 inch / 11 cm pot	\$8.95
6 inch / 15 cm pot	\$17.95
#1 pot / 20 cm pot	\$19.95
#1 Proven Winner	\$21.95

Specialty perennials - prices may vary

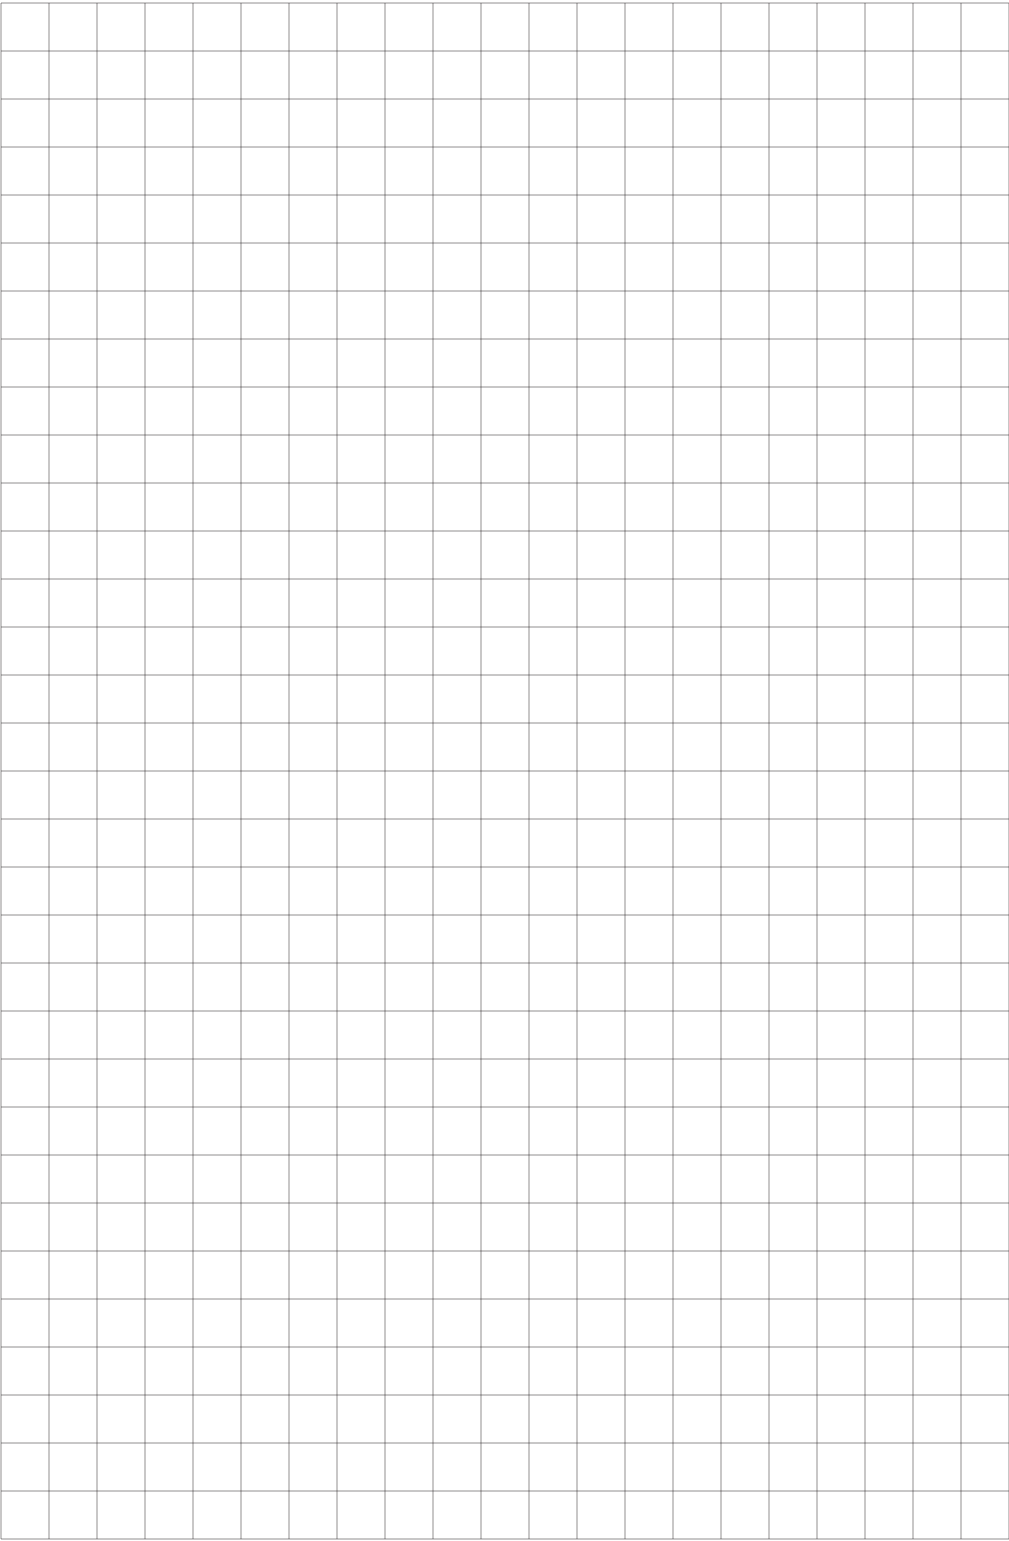

We carry a wide selection of perennial flowers, ferns and grasses. The following list shows our most common plants, but throughout the season more and different varieties may become available. Please drop in and see what's new.

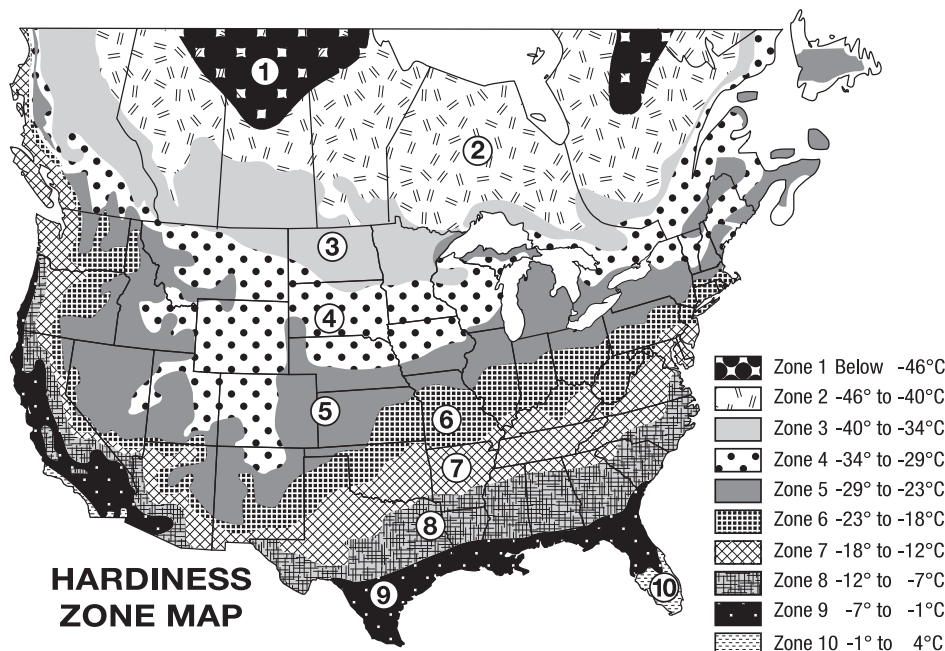

Although not specific for each plant variety, we wanted to give you ranges on blooming colours, mature heights and soil conditions. It will give you a good start to your gardening adventure.

COMMON NAME	BOTANICAL NAME	FLOWER COLOUR	MATURE SIZE	SOIL MOISTURE	BLOOM TIME	LIGHT
Aster, Alpine Aster	<i>Aster alpinus</i>	blue, pink, white	8-10"	dry-moist	spring	◐ ○
Allium, Flowering Chives	<i>Allium schoenoprasum</i>	purple	12"	dry-moist	spring	◐ ○
Astilbe, False Spirea	<i>Astilbe spp.</i>	pink, red, white	12-26"	very moist	summer	● ◐
Balloon Flower	<i>Platycodon grandiflora</i>	blue	24"	moist	summer	◐ ○

Sneezeweed	<i>Helenium spp.</i>	or, red, yel	16-36"	moist	fall	○
Snow in Summer	<i>Cerastium tomentosum</i>	white	8"	very dry-dry	summer	◐ ○
Snow on the Mountain	<i>Aegopodium podagraria</i>	white	12"	dry-moist	summer	● ◐
Soapwort	<i>Saponaria ocymoides</i>	pink	6"	dry	summer	○
Solomon's Seal	<i>Polygonatum odoratum</i>	white	30"	moist	summer	● ◐
Speedwell (groundcover)	<i>Veronica spp.</i>	bl, pur, wht	2-6"	dry	summer	◐ ○
Speedwell (spike)	<i>Veronica spp.</i>	bl, pk, wh	8-24"	dry	summer	◐ ○
Spiderwort	<i>Tradescantia andersoniana</i>	purple	18-24"	moist	summer	● ◐ ○
Sweet William	<i>Dianthus barbatus</i>	pink, red, white	6-12"	dry	summer	◐ ○
Sweet Woodruff	<i>Galium odoratum</i>	white	8"	moist	spring	● ◐
Thrift, Sea Pink	<i>Armeria maritima</i>	pink	4-6"	dry-moist	summer	◐ ○
Thyme	<i>Thymus spp.</i>	pnk, pur, wht	2-4"	dry	summer	◐ ○
Turtlehead	<i>Chelone obliqua</i>	pink, white	30-36"	moist-wet	summer/fall	◐ ○
Viola, Perennial	<i>Viola spp.</i>	purple, red	4-6"	moist	spring/summer/fall	◐ ○
Wall Cress	<i>Arabis x sturii</i>	white	3-4"	dry-moist	spring/summer	○
Yarrow	<i>Achillea spp.</i>	pink, red, yellow	12-36"	very dry-dry	summer	◐ ○
Yucca	<i>Yucca spp.</i>	white	24-36"	very dry	summer	○

DEER and the environment

The following list is an attempt to help you understand deer feeding habits and how these animals may be discouraged from eating the *leaves* of your garden. Remember though that menu changes from deer to deer, year to year, season to season, starving deer become bolder, and lots of food makes them more choosy. Unfortunately, some like any plant. So, there is no deer *proof* plant.

Deer **avoid** poisonous plants or a bad experience of a plant while eating.

Deer usually **don't eat** plants with coarse, fuzzy, bristly, spiny textures, or intense aromas.

In general, plants become less tasty and tougher as they mature. Many drought tolerant plants can be considered deer resistant because of tougher cell structure necessary to withstand desiccation. Drought tolerance is a quality of established plants, and trees at a reasonable level of maturity.

We carry the following plants that deer may leave alone:

Evergreens

Cedar, Holmstrup
Juniper,
Alpine Carpet
Moor-Dense,
Prince of Wales,
& some others
Larch
Spruce,
Colorado,
White

Shrubs

Barberry
Broom
Cotoneaster
Cranberry
Currant
Forsythia
Lilac
Nanking cherry
Potentilla, shrub
Spirea
Wayfaring Tree

Trees

Ash
Birch
Pincherry
Russian Olive

Perennials

Bellflower
Bleeding Heart
Bugleweed
Delphinium
Fern
Forget-me-not
Geranium
Iris
Lady's Mantle
Lamb's Ear
Lamium
Lavender, English
Lupin
Mint
Monarda
Poppy
Sage Russian
Scabiosa
Southernwood
St. John's Wort

Sweet Woodruff
Yarrow
Yucca

Annuals

Ageratum
Begonia,
tuberous
Dahlia
Scabiosa
Snapdragon
Sunflower
Verbena
Zinnia

Bulbs

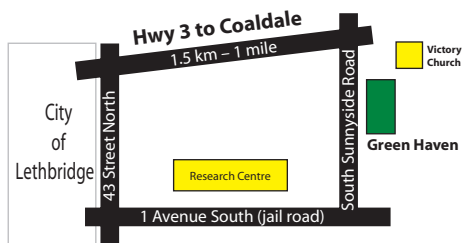

Allium
Narcissus
